To further clarify the true need for the Public's private consideration of these proposals, here are the opening words from Thomas Paine's revolutionary pamphlet, *Common Sense* (January 1776),

Perhaps the sentiments contained in the following pages, are not YET sufficiently fashionable to procure them general favour; a long habit of not thinking a thing WRONG, gives it a superficial appearance of being RIGHT, and raises at first a formidable outcry in defense of custom. But the tumult soon subsides.

"Time makes more converts than Reason"

Problem-Solving Platform Briefs
on 20 of 40+ Publicly Acceptable Problem Solutions

Common Sense 2021 Critical Policy Chart

1. Food for All Citizens
2. Implement the US Re-Employment System
3. Suspend ALL Immigration for 2 Years
4. Demanding the US Constitution Abortion Rights Amendment
5. No Financial Reparations for Black Americans
6. The US Wealth Tax – The Economic Reparations Tax (ERT) Policy.
7. A Fixed Address for all of our Citizens
8. Establish National White Americans Day
9. Cannabis Industry as a Small Business, only!
10. Hemp for American Farmers – Finally
11. Near-Term Reassignment of Bad Cops
12. The 90-Day Death Penalty Reform
13. Reformation of All Family Support Services
14. Reinstatement of the Military Selective Service Program
15. Prostitution will be Federally Legalized
16. The US Recycling Industry
17. Refunding Covid19 Overcharges – Pandemic Wartime Profiteering
18. Save the Truckers Jobs
19. Regarding Our Failing Environment
20. Independent 2022 Political Action – Begin Replacing Failed Politicians

Please remember these are some of the “Publicly Acceptable” 40+ problem-solving proposals and much more on the TIPA website,

www.CommonSense2nd.com

Common Sense 2021 Critical Problem Solutions Chart

PS#	Public Problem Area or Topic	Proposal Brief Details 8-15-21
1	Food for All Citizens	<ul style="list-style-type: none"> • All American Citizens, with no exceptions (that is what “<u>all</u>” means!), will have access to and local availability of decent Food. That means 3-meals-a-day. • This is TIPA Platform’s first proposed Industry Reformation. The Food Industry is being categorized as a basic “<i>National Infrastructure System</i>” within our economy. • “Infrastructure” implies a living necessity that people and many businesses cannot survive well without. <p style="margin-left: 40px;">We already have a similar program and attitude about the prudent pricing control management of the Public Utilities used in homes and businesses – gas and electric services primarily.</p> <ul style="list-style-type: none"> • Now before somebody starts it, this is not socialism or communism, or violating the free market. So, please just shut up, grow up, and expand your mind. If you can think of a better and fairer way to <u>actually get this done</u> – then please let us know, now! Or just sit there quietly, while We the People take care of such basic human needs! Food security will not be a luxury in America. • We will practically Reform Food related industries from seeds and fertilizer and fish bait – to grocery store shelves. • Of course, We will take care farmers. Those that grow the cucumbers and those that make them into pickles!! • Remember that well over 80% of farming in America is now corporate – not family farm based. • NO, we will <u>not</u> be Federalizing such Industries. • We will use a new Economic Reparations Tax (ERT) to buy-out Food related corporate stockholders over a period of years. More on that prudent ERT shortly!

		<ul style="list-style-type: none"> • Further, we will remove certain products from the Commodities Market and place control/caps on certain others. The Commodities Market will no longer serve as an ATM to traders.
<p>2</p>	<p>Implement the US Re-Employment System</p> <p>This program needs to be implemented immediately in all 50 States and DC in order to help end the abuse both Covid19 and Regular State Un-Employment benefits.</p> <p style="text-align: center;">o o o o</p> <p>This is a Reform to standard Un-Employment Client Handling Policy. It needs to be implemented in all 50 States and DC, immediately.</p> <p>It will force Unemployment cheats into gainful employment or they will not receive benefits.</p> <p>People that are receiving financial support from the State’s taxpayers will work if they are able to work.</p> <p>If necessary, they will be assigned at least a temporary work assignment.</p> <p>They will always have the right and freedom to move to another job of their choosing.</p>	<ul style="list-style-type: none"> • This is personally one of my favorite proposals because it serves as a driver proposal for solving many inter-related social and economic problems facing our struggling citizens. • In all 50 States and DC, the various Departments of Un-Employment Services, will be Restructured and renamed to the Department of Citizen Re-Employment Services (DCRES). • This action is both prudent and practical! • When a citizen comes to their offices for Un-Employment \$upport they will be evaluated for the following: <ul style="list-style-type: none"> o Educational Level. If they do not have a High School diploma, GED Classes could or will be required. o Existing Vocational Abilities o Basic Social Skills • Those Employment qualifications will be loaded into the National Re-Employment System accessible by the DCRES groups in all 50 States and DC. • Weekly Un-Employment income allotment services will be granted appropriately to the new DCRES client. • Now, for something new! They will then be “available” in their local area, for needed work/tasks within reason. Depending upon the work assignment it could be compensated, but not necessarily. <p>The taxpayers are paying them so if they can work at least part-time – they will be expected to make themselves “available”.</p> <p>This approach is intended to greatly reduce the freeloading games and abuse of taxpayer dollars!! And they all said, amen!</p>

		<ul style="list-style-type: none"> • The new DCRES groups will also work directly with private employment agencies – to name just a few examples: <ul style="list-style-type: none"> ○ ZipRecruiter ○ Indeed ○ Robert Half ○ Kelly Services ○ Adecco ○ Randstad ○ AMN Healthcare ○ And scores of others across the nation... • When their new employment is secured, their weekly DCRES payment may partially overlap the new job a few weeks to help them through the adjustment period. Or could be reduced to help balance their financial transition for those few weeks. It is only practical. • Clients will be allowed to change jobs from that DCRES helped them to find. However, they must make the move immediately and to a better position. • <u>If client relocation is practical</u>, in a given individual/family situation (like for some of those 60,000 homeless people in LA County), it could/will be facilitated by DCRES to a point. Many of us had to move away from home for a viable job opportunity and paid our own way. I know I did. Realistically, we will be required to kick some people to go where the jobs are to be found! <p>The proposed Reforms to the normal Un-Employment Claim process, should result in less time for clients to be drawing weekly benefits !!</p>
<p>3</p>	<p>Suspend <u>ALL</u> Immigration for Two (2) Years</p> <p>As well as, initiating the immediate national implementation of the US Citizen ID System.</p> <p>The proper execution of those two (2) programs is the only way we will ever take control our national borders.</p>	<ul style="list-style-type: none"> • We the People have endured far more than enough of the illegal invasion of our sovereign borders over the last 40+ years! Including via our international airports! • We will close our borders to ALL, Legal <u>and</u> Illegal immigration, ASAP. And that cut-off could be made retro-active by some number of months and up to a year. A bluntly declared line must be drawn on this border security issue. • That means no more babies, alleged children, pregnant woman or any other sad case. And the

	<p style="text-align: center;"><u>Just Do It !!</u></p> <p style="text-align: center;">o o o o</p> <p>The Biden Administration will be challenged to enact this Immigration Suspension Program <u>immediately</u>.</p> <p>The Suspension could be retro-actively dated 1-1-21 or earlier!</p> <p>It will include ALL men, women, children, and babies. No exceptions for ANY reason or excuse.</p> <p style="text-align: center;">o o o o</p> <p>The constant annual flow of illegals into our nation is not due to a crisis in Mexico, Central and South America. It is a 30+ year old problem, or put another a bad habit! And, We the People will now break that habit or We will have 535 new members in the US Congress. They will only get one (1) more chance to serve our Common Good.</p>	<p>Geneva Convention can be damned for a few years. No apologies will be offered.</p> <ul style="list-style-type: none"> America does not owe anyone from anywhere in the world the right to enter or stay in our nation. Especially without a valid invitation. Simultaneously, We will rapidly implement our own US Citizen Identification System (USCID). The US is one on the <u>only</u> nation’s that does not utilize such a practical and efficient Population ID system. <p>Lack of such a viable system is a primary reason why our borders are so easily and constantly violated.</p> <ul style="list-style-type: none"> This program will allow and support a grand national housecleaning! In time, <u>anyone within our borders</u> will have that USCID or a valid Visitors ID. Just Common Sense! In mid-2021, we literally have millions OF OUR CITIZENS, without adequate food or housing or jobs. To say nothing about health care. <p><u>We will act to take care of our own first.</u> <u>Only</u> then will we slowly reopen the doors to LEGAL immigration. No apologies will be offered to anyone!</p> <p><u>Both</u> political Parties since Ronald Reagan have functionally ignored <u>and</u> allowed this border abuse. Because for <u>both</u> parties, some of their major campaign donors want cheap labor and/or bodies to fill their rental units.</p> <p style="text-align: center;">There it is... The Truth of the Matter.</p>
<p>4</p>	<p>Demanding – US Constitution Abortion Rights Amendment</p> <p>Enough is Enough!!</p> <p>The Republican Party has been intentionally playing the “church people” for donations and votes since Ronald Reagan was President.</p>	<ul style="list-style-type: none"> On the TIPA Platform website, ‘CommonSense2nd.com I offer several Constitutional Amendments. One (1) of them is called, Abortion and Right to Life Reconciliation. First, a few thoughts on the current situation and then I will review the practical Amendment to finally deal with the Abortion Rights matter, once and for all. I had not intended to include the amendment in this first group of legislative problem solutions.

		<p>However, the recent ridiculous actions by the Republican Texas Governor and State legislature demanded a response.</p> <ul style="list-style-type: none">• While some 70% of the American public support a woman’s right to choose, the Republicans are throwing the emotional abortion issue into the news to further disturb the political process and raise money.• If ever the term, “necessary evil” applied it does with the abortion option.• No one wants to have an abortion or to see someone else have one. We can all agree on that I believe.• And although the Vatican preaches the most against it, abortion is still available in Italy!• I have found that people of any religion are for or against abortion. Also, that absolute atheists are for or against it.• It is a heart-ripping personal decision based upon a woman’s current situation and health.• The Amendment is straightforward.<ul style="list-style-type: none">○ In the first trimester (3 months) of pregnancy, abortion will be fully legal, locally available, medically safe, and funded by the government.○ However, in the second and third trimesters of pregnancy it will not be allowed, except when the woman’s life is at risk or the fetus is known to have serious physical issues. And even then the woman may still decide to carry the baby to full term.○ That is, it!! End of discussion, law suits, and Republican funding-raising games.• I am a “born again” Christian and have been for some 40 years. However, I believe in the separation of Church and State. I support a woman’s right to choose and Death Penalty as you will see shortly.• Church people need to realize that their decades of fighting abortion rights and terrorizing providers and woman are one (1) of the reasons that many people got turned off to the church! Christ only wants us to help save souls in case you have forgotten that!
--	--	--

5	<p>No Financial Reparations for Black Americans</p> <p style="text-align: center;">o o o o</p> <p>Once and for all! There will be no financial Reparations paid to the current day descendants of Black Slaves.</p>	<p>There will be more on the Reparations topic shortly. I believe in the practical use of Financial Reparations, but not as related to Black Slavery in our nation's past.</p> <p>If Black Slave descendants in America, Canada, Mexico, the Caribbean, Central or South America feel that they are due such Financial Reparations, they should petition the Queen of England for starters!</p> <p>The English monarchy and others nations including some of those in Africa, built and profited from that horrid system. The use of Slaves began in the American English colonies in 1619.</p> <p>Some 157 years later, our 1776 American Revolution and the eventual US Constitution, opened the door for the eventual end of Slavery in America.</p>

<p>6</p>	<p>The US Wealth Tax – The “Economic Peace” Tax (ERT) Policy.</p> <p style="text-align: center;">o o o o</p> <p>The Wealthy and Big Industry will be taxed fairly and perpetually.</p> <p>Probable Initial Economic Reparation Reformation Industries:</p> <ul style="list-style-type: none"> • Food • Housing • Health Care 	<ul style="list-style-type: none"> • The Party is Over! • The Beyond Sense (BS) thinking of “Trickle-Down Tax” policy is dead. • “Bubble Up Tax” policy will take over in a very aggressive, targeted, and trackable manner. • “Fair” and “balanced” tax policy will become the Law of the Land – instead of a sad joke! • To the Wealthy, Big Industry, and their financial advisors “fair” is a 4-letter-word. • The permanent and practical Reformation of Federal and State taxation of the Wealthy and Big Industries will be accomplished, out of the simple demand for Tax Revenues!! • ASAP, the 2017 Republican Tax cut for the Wealthy and Big Industry will be reversed for the top 80+% of those that benefited from it. Those that did not need it in the first place. • Reparations do have their place and this is how we will prudently implement the new Economic Reparations Tax (ERT) Policy. This viable program will receive incredible public debate. But, it will be done! • The Wealthy and Big Industries of today will literally pay for the financial sins of their “fathers and mothers”. Those that caused the 2007/2008 financial crisis, the Crash of 1929, and every other Wall Street and investor based financial crisis over the last 150 years. • This Tax Reform is the prudent, practical, and fair approach to National Reparations. It will help Americans in need today no matter the color of their skin. <p>This will be an interesting public debate to observe. The Majority of the Public will support this proposal.</p>
-----------------	--	--

<p>7</p>	<p>A Fixed Address for ALL of Our Citizens</p>	<ul style="list-style-type: none"> • The Homelessness Citizen situation in America gives its own meaning to the term “<i>out-of-control</i>”. For a pathetic example, LA County, California <u>alone</u> had some 60,000 homeless early this Summer. • We the People – Demand that All Americans will have a safe and decent place to call home. Also known as, <i>a fixed address</i>. This will be a national requirement. • Certainly not a single-family home, but a <i>decent place to call home</i> with its related personal sense of stability. <u>And, no it will not come free to them!</u> • This is a national moral sin and our “elected leadership at the Federal and State levels do nothing to end it”. This problem affects all types of Americans. • The Department of Housing and Urban Development (HUD) will be Reformed to become the Department of Citizen Relocation (DCR). They will begin coordinating with all 50 States, the relocation of homeless and/or jobless people to areas of the country that need labor and have available housing options. This operation will involve the (former) State Un-Employment Departments of all 50 states and DC. More on that in a moment. • We will implement National Rent Control (NRC) in cities and towns. Such as is used in New York City. • We will provide <u>decent</u> landlords with financial options to help balance their finances, as required. Helping landlords that is – <u>not slumlords!</u> <p>No more housing evictions will become Federal law. The DCR will coordinate this policy. <u>No citizen will be forced out of a residence until there is another place for them to move.</u> Landlords and tenants will have Rights, as well as, strict Responsibilities in this critical process.</p> <ul style="list-style-type: none"> •
----------	---	--

<p>8</p>	<p>Establish the National White Americans Day</p> <p style="text-align: center;">o o o o</p> <p>Race will decrease being an issue in America when We the People do as my Mother taught me to do as a young boy. She said Andy, “You need to treat everyone the same”.</p> <p>Or in other words, as what is the commonly referred to as the <i>Golden Rule</i>, “Do unto others as you would have them do unto you”.</p> <p>That phrase originated from Book of Matthew, verse 7:12 of the King James version of the Holy Bible.</p>	<p>Yes, my fellow Americans, I am calling for the first Annual National White Americans Day to be observed on the fourth Saturday in October. This year it will fall on Saturday October 23rd.</p> <p>I had no intention of bringing up this issue until several months ago I was listening to a Black female that I had heard before talk on cable before. Always slightly biased but never over the top. But this time she stated that, “Anyone that puts out an American Flag in their yard is a racist.” That was enough and enough is too much. It must be noted that some people actually believe that Black cannot be racist against White people. That is simply bullshit!</p> <p>The Race issue in America has gone completely off the rails the last five (5) years and it is time to bring our society back to some rational order.</p> <p>Friction between the Races in America is not nearly as bad as some social agitators are making it seem. We have had enough of the divide and conquer games played by again, Republican politicians and some radical groups.</p> <ul style="list-style-type: none"> • This new holiday makes perfect sense. As the Moody Blues once said, <i>“It is a question of balance!”</i> • The average American does not spend all day thinking about race. • If someone dislikes and/or hates another group of people without ever meeting them, it is simple ignorance. They were taught to hate. • There is common dislike of different groups in every nation in the world. And the more difficult economic life is in a given nation, the more friction will exist. • More on this another day...
-----------------	--	--

<p>9</p>	<p>Cannabis Industry as a Small Business, <u>only!</u></p> <p style="text-align: center;">o o o o</p> <p>The original Marijuana legalization group – NORML finally wins!!</p>	<ul style="list-style-type: none"> • Now let us please lighten this presentation a bit! • I always said, that when the Baby Boomers got old enough Cannabis would be fully legalized. The oldest Baby Boomers are 74 years old in 2021. • We the People, Demand the full legalization and decriminalization Cannabis at the Federal level, immediately. And be removed from its ridiculous place on the DEA’s Drug Schedule. • It will also be legalized and decriminalized in ALL 50 States and DC. • Cannabis farming will be Federally mandated to be a Small Business, only enterprise. Pretty much following the successful Colorado model. • The Wall Street based corporate entities that have been angling for years, to takeover major parts of the legal and very profitable Cannabis business – <u>will be shut out.</u> This time the Public wins and they lose. • This growing Industry is a perfect small, state-based business model. Those small businesses will be fairly taxed with the funds going into needed State public programs. Funds will <u>not</u> be used to pay un-necessary stockholders or executive compensation. • Banks will provide loans to reputable start-up businesses. • Cannabis commerce between states will be allowed. • Some legally imported Cannabis trade will be allowed and strictly monitored.
<p>10</p>	<p>Hemp for American Farmers</p> <p style="text-align: center;">o o o o</p> <p>American Farmers finally win out over Industry lobbyists after 85+ years !!</p>	<ul style="list-style-type: none"> • Hemp the “<i>non-buzz producing</i>” natural cousin of Cannabis will also finally be legalized. • Hemp is a highly commercial crop. • Farming this simple-to-grow plant will create raw materials for building and manufacturing. • It will create JOBS!! • Finally, HEMP will become a legal farm crop in America. Something that our farmers have begged Congress for since the 1930s! • It is interesting to learn that Thomas Jefferson smuggled the first Hemp plants into the colonies. He and George Washington grew a lot of it.

		<ul style="list-style-type: none"> • Products that can be made from Hemp include – cloth stronger than cotton, lamp oil, home heating oil, paper, bio-degradable plastic, and more. • Now you can imagine the Big Industries that have lobbied hard against Hemp farming in America since the 1930's!!!
<p>11</p>	<p>The Near-Term Reassignment of Bad Cops</p>	<ul style="list-style-type: none"> • It is very simple really. Consider that every police barracks/station is the nation knows exactly who the offending police officers are. It is no secret. And to be very clear, they are not all White!! • The Bad Cops will be immediately and permanently reassigned to non-street jobs. • “Defunding the Police” is a totally ignorant thought and would be a disastrous public action.
<p>12</p>	<p>The 90-Day Death Penalty (DP) Reform</p> <p><i>“The Obvious Guilt Law”</i></p> <p style="text-align: center;">o o o o</p> <p><i>This proposal is acceptable to well over 65 % of the Public. More like 9 out of 10 people that I asked about this proposal over the last 20+ years.</i></p> <p>Please see the TIPA website, CommonSense2nd.com for <u>far more</u> detail on this proposal and many others!</p>	<ul style="list-style-type: none"> • Civil society requires real rules and true punishment to back them up in certain cases. • We the People, have had enough of the Judicial Legal Complex (JLC) dragging out trials and delaying or preventing the Public’s justice from ever being applied. And applied immediately. <p><u>How the 90-Day Death Penalty Law Will Work</u></p> <ul style="list-style-type: none"> • Once convicted in a standard court trial and found guilty on absolutely Obvious evidence, the criminal will receive the DP sentence. That sentence will be carried out within 90-days. • Federal law will override any State laws now prohibiting the use of the DP. • We the People, will demand the 90-day DP in the following cases (and in this priority sequence): <ol style="list-style-type: none"> 1. Pre-meditated murder by any means 2. Pre-meditated rape, not date rape 3. Pedophile Crimes 4. Sex Traffickers 5. Internet Hackers and Ransomware Criminals 6. Financial Scammers 7. Hard drug trafficking across our borders 8. Hard drug distribution within our borders 9. Others will be added.

		<ul style="list-style-type: none"> • Society and the taxpayers are fed up with self-serving lawyers, courts, and for-profit prisons. • The failed Criminal <i>Justice</i> System will be rapidly reformed into the Criminal <i>Punishment</i> System.
<p>13</p>	<p>Reformation of ALL Family Support Services</p>	<ul style="list-style-type: none"> • This proposal will address many taxpayer complaints about welfare fraud, unemployment fraud, food stamp/WIC fraud, housing fraud, and so on. • Just as the new Re-Employment System is designed to be a closed-end, individual and family healing program, so will this Reformation be to public support services. Amen! • Individuals and family units will be strongly counseled regarding their finances, employment options, vocational and education options. As well as in basic life skills, such as managing a checkbook. • Bluntly put, young women 18 years old and under will be counseled not to get pregnant before they have a High School Diploma in their hand! Was that clear enough?! • Birth control will be made available to teenage girls, including the “morning after pill” in an act of simply reality. Giving those girls a chance for a better life, frankly. • We will provide for planned pregnancy prevention, so that we may in some way reduce the demand for abortions.
<p>14</p>	<p>Reinstatement of the Military Selective Service Program</p> <p style="text-align: center;">o o o o</p> <p style="text-align: center;">The Military Draft</p> <p style="text-align: center;">This time both men <u>and</u> women to serve their country.</p>	<ul style="list-style-type: none"> • This incredibly practical program is another one of my favorites because it will do so much good within our society and economy. • What I call, <i>The Big Mistake</i>, was our ending the Draft on December 7, 1972. The nation’s greatest societal error of the last 50 years. • In brief, from World War II to 1972, each year up to 1.8 million 19-year-old boys from farms to inner cities went into two (2) years of military service <i>together</i>. • They were all trained and disciplined. They learned a work ethic and how to get along with each other. They were molded into young men.

		<ul style="list-style-type: none"> • When the Draft was <i>recklessly</i> ended, those 1.8 million young men went out into world without that base of experience. Since then in my estimation, almost every aspect of life in our society has suffered. Including the eventual rise of racism in all directions. Think about it. • They will all serve for two (2) years. • They will complete six (6) months of standard military training. Then many of them will be transferred to State Guard Units for construction and other public service programs – for the rest of their tour.
<p>15</p>	<p>Prostitution will be Federally Legalized</p>	<ul style="list-style-type: none"> • Again, this is another social/economic policy situation where the US needs to play catchup with the rest of the world. • Awkward as it may be to talk about, we are one of the very few nations that does not allow and control the world’s oldest profession!! • This is related to programs that will act to end the sex trafficking in America.
<p>16</p>	<p>The US Re-Cycling Industry</p>	<ul style="list-style-type: none"> • This under-utilized environmental program will finally get the Public priority action it demands. • This critical function must become a required National program in every household in America. • It is great for the environment. • It will extend the long-term availability of certain limited natural resources. • It will create JOBS!! • Construction of processing centers all over the nation. • Routine collections from homes and businesses. • Recovery of building materials after tornadoes, hurricanes, and damaging wind storms. • Material processing jobs. • Processed materials will be fed into manufacturing centers also to be built. They will produce construction materials and make some of the consumer products now made in China and elsewhere. <p style="text-align: center;"><i>This is a national no brainer.</i></p>

<p>17</p>	<p>Refunding Covid19 Overcharges – Pandemic Wartime Profiteering</p>	<ul style="list-style-type: none"> • This is a bit of ugly financial reality that the P45 Administration and the US Congress allowed to happen. • It is the opportunistic overcharging for Medical Supplies and Services (MSS) throughout 2020 and on into 2021. • This a gross free-for-all by MSS vendors. And it is a horrific example of the failure and abuse of <i>Supply and Demand</i> methodology. • And a blatant example of <i>wartime profiteering</i>. • The P45 Administration refused to enforce the Defense Production Act to control the cost of critical supplies and services. Thus, all 50 States, DC, FEMA, other Federal and State agencies, hospitals, etc., were all bidding up the price of those “Pandemic War Time” supplies and services. • Masks of all types, face shields, gloves, ventilators, refrigeration for vaccines, and so many more items. • The way too early use of, and over use of Contact Tracing services. What a gross waste of money. • The need for refrigeration for vaccines requiring sub-zero temperatures. <ul style="list-style-type: none"> ○ Note: We should be sending the Johnson and Johnson vaccine to Third world nations. A vaccine that does not require such exotic refrigeration. Who is buying those refrigerators and what are their jacked-up costs? Who is paying for them? We are most likely! • I challenge the Press in all 50 States to publicize the overcharges within their respective States. IF a couple of them step up and get the ball rolling, the Press in other States will follow their lead. Corporations will be required to make big dollar refunds. • The Congress might get around to this in a year or two. It would hurt some of their campaign donors.
<p>18</p>	<p>Save the Truckers Jobs</p>	<ul style="list-style-type: none"> • This is a national wake-up call about the downside of Artificial Intelligence (AI) technology taking viable jobs away with no real place for those displaced workers to go.

		<ul style="list-style-type: none"> • As has been reported on various news programs, businesses are already testing driverless tracker trailer “Big Rigs”. • The real potential for the loss of millions of decent paying trucker jobs is at stake – if this technology is allowed to advance without some practical controls. • Businesses that utilize truck deliveries want to cut the cost of human drivers. • This tedious issue demands a very open public debate. At times, AI is certainly a profitable option, but a critical job killer, at the same time1. <p style="text-align: center;">Save the Truckers!</p>
<p>19</p>	<p>Regarding Our Ailing Environment</p> <p style="text-align: center;">o o o o</p> <p>None of this is easy, folks. However, if we truly desire to resurrect our ailing Global Environment – these and other actions must be demanded of all world leaders.</p> <p>For a hard example of the social and economic challenges that are surely coming, but that our clueless elected officials will never deal with soon enough, let’s talk about the State of Florida!</p> <p>Climate scientists have determined that around the year 2100, 79 years from now, most of the entire State of Florida could very well be in standing water or worse depending upon where you are the state.</p> <p>So, what about that? Some people will ask. Florida currently has a population of 22 million people. Yes, 22,000,000!</p> <p>The major city of Atlanta, Georgia has a population of about 450,000 people.</p> <p>So, as Florida becomes permanently uninhabitable need to have housing, jobs,</p>	<ul style="list-style-type: none"> • First, I must challenge every adult in America, to watch the Environmental documentary, “<i>The Planet of the Humans</i>”. I watched it for the first time on August 10, 2021. It was very blunt and disturbing and I am not that easily disturbed. It detailed how corporate America had quietly taken control over the Environmental Movement for their <i>fun and profit, of course...</i> • Re-Cycling of all possible reusable materials must become every US citizen’s responsibility. And for every other nation in the world. • Possibly through the United Nations (but not necessarily) the vast majority of the nations of the World must jointly and forcefully Demand that China and India will immediately cease building anymore Coal Burning Power Plants. And to begin only building new technology and more efficient Nuclear Power Plants for any future additional power requirements that they may have. <p>And finally, both nations will be challenged to begin replacing their existing Coal Plants with Nuclear Power.</p> <p>Other nations may need to do the same. This urgent shift away from burning Coal is not an option anymore.</p>

<p>schools, etc., for those 22,000,000 Floridians. That over the next 80 years we need to build about 44 cities the size of Atlanta just to relocate the folks in Florida. That means the land, building materials, and labor required to do all that work.</p> <p>And that is only Floridians being displaced by rising sea level and heavy precipitation. It will be happening all over the nation – not just along the coasts!</p> <p>Think about when deciding who to vote into the US Congress and 50 State legislature. No more Climate deniers!!</p> <p>We will Reform and Instruct the paper tiger also known as the Organization of American States (OAS). We will drive Democratic Economic Reforms in this Hemisphere.</p>	<ul style="list-style-type: none">• All nations will agree to limit airplane travel. Airplane engine exhaust is one of the worst pollutants in the world. We saw the startlingly clearing of the atmosphere when COVID19 shut down most air travel for many months. <p>Yes, this Program will deliberately limit the growth of the Airline Industry. This is called a necessary evil. We will work with the Airlines as they trim their businesses accordingly.</p> <p>This will motivate the Airlines to come up fuels that do not ruin the Atmosphere.</p> <ul style="list-style-type: none">• This next program will may sound a bit odd at first, but it could provide great benefits should it work. It is the deliberate artificial rebuilding of the Northern Polar Ice Cap. The North Pole. <p>Once we get beyond thinking this ridiculous, scientists will quickly determine its practicality. I believe such studies may well have already been conducted.</p> <p>Simply put, the critical problem to be addressed is that the Northern Ice Shield has receded tremendously. As a direct result the sun’s rays are properly reflected off the ice and back into space. Instead, the uncovered dark waters of the North Atlantic have been absorbing more and more of those rays, warming the ocean, and melting more of the Polar Ice Cap.</p> <p>Therefore, it is in our global interest to rebuild that Polar Ice Cap if at all possible. WE could for example determine if the unwanted material Styrofoam could be used for this purpose. This is not a joke, folks.</p> <ul style="list-style-type: none">• I will offer one (1) more Program that scientists have declared would be a major achievement in the effort to reduce the rate of the global climate’s deterioration.
--	---

		<p>Simply stated, our Planet Earth of 2021 is technically over-populated. We are nearing 8 billion people of the fragile planet.</p> <p>Some have boasted that the Planet, if we managed it better could support some 12 billion Earthlings! I think we can all agree that the world’s current “elected” leadership appears to be more and more lost every day.</p> <p>Simply, stated the climate would greatly benefit we were able to reduce the population by one (1) billion inhabitants – for starters.</p> <p>According to experts on such issues, they state that if families had only two (2) children the problem would take care of itself. These issues will be documented for public information and open debate.</p> <p>I concede that this practical Program will generate a bit anger and objections from a minority of Americans.</p> <p>However, We can and will work through some of those objections together. We will also frankly ignore some of those objections!! And in due time, we shall produce a far more peaceful world and contented global population.</p> <ul style="list-style-type: none"> • Much more to be added to this list of prudent Climate Programs.
<p>20</p>	<p>Health Care in America is a Disgrace</p> <p>This would include the Medical Insurance and Pharmaceutical industries.</p>	<ul style="list-style-type: none"> • I will not spend a lot of time on this completely out-of-control public necessity. Here are a few points. • We do not have a national health care system. We do have 51 of them, as in 50 states and DC. • The private companies that drive Health Care and Pharma’s, are all profit-making. Meaning they care about stockholders before their clients. You and me! • When discussing this with folks I point that Europe (and Canada) has a better health care system than we do. Most say but ours is the

		<p>best in the world. To that I reply, but Europeans are healthier and live longer than we do.</p> <ul style="list-style-type: none"> • Also, the reason theirs is better is only because Europe’s entire health care system was literally blown up in World War II. Seriously! Thus, once the war ended those nations had to rebuild all of the public infrastructure systems including health care. And they had to build a system to take care of everyone because no one had anything at that time. And remember they were in the Depression before the war even began! • Our Health Care Industry was not hurt that badly and kept right on lobbying Congress and controlling all related legislation. And they still are but that will soon come to an end. The Medical Insurance corporations and the Pharma’s will be reformed and restructured to serve the Public Good. • The American Medical Industry and Pharma’s treat us like a car repair shop. They do not believe in preventive maintenance. They do not want to see us until we are sick. And the Pharma’s want us all to be taking 20 pills-a - day. Again, enough is enough. Amen...
	<p>As you can see, when I said hit the problems “in the face” I wasn’t kidding.</p>	<p>Remember these a some of the Publicly acceptable 40+ problem-solving proposals on the TIPA website</p> <p>‘www.CommonSense2nd.com</p>
