o o o o

My dear fellow American Citizen,

What you are now being briefly introduced to is the result of several decades of patriotic labor on my part. Sincere effort willingly given on behalf of you, your family, all of those that you love or otherwise care about, and the other 330,000,000 of our fellow American citizens that you and I shall never, ever meet! AJW

o o o o

Common Sense 2021

To observe that American society has become somewhat fractured in recent years, and especially these last turbulent five (5) years, would certainly shock no one. Since this past January it almost feels that we are living in some other country. In particular, the un-Democratic and grossly self-serving behavior of those both in and out of government since March of 2020 have intentionally produced divisions between people that did not exist that many years ago. I must also add, that the older a person is during these recent turbulent years, the stranger and fully disappointing it all is. In our lifetime, American politics has never been so totally dysfunctional or our politicians so immature, embarrassing, and useless.

I will not waste our time building the logical case for “whom and what caused this national breakdown in decency”. Because it is obvious – the deliberate actions and inactions of both National political Parties and their self-serving operation within the US Congress, 50 State legislatures, Local-level governments.

It is their conscious desire to gain re-election and remain prince and princess of their domain. And it is their somewhat large unconscious desire to maintain a decaying Status Quo within our social and economic system. Their desire to serve those that make the large donations that fund their multimillion-dollar campaigns. To once again convince their Voters to re-elect someone – man or woman – that is not fixing the public’s problems and working for our Common Good. The completely addressable problems slowly decaying our society, the day-to-day economy, and the environment that Big Industry has been willingly destroying for half-a century – for fun and profit! The leadership and elected members of both political Parties have orchestrated this decline in unique and overlapping ways.

The Fall of 2021 – boldly presents all that is left of the “once” effective and respected Republican Party! Its self-serving political leadership (aka, Mitch McConnell) practices nothing but ill will toward the Masses of Americans and toward our sacred Democracy itself. They are living the old devil’s art of “*divide and conquer*” for purely personal gain – and the Masses of damned.

They have criminally preached against the peace amongst our people in order to retain Power and Control and to distract from the underlying economy that hurts more real families each passing day. Their twisted *leader* is skillfully playing his followers for votes, every fund-raising dollar that can be scared out of them, and frankly for *fools*. Elected Republicans have

deliberately turned away from American Democracy in their lust for financial benefit, campaign funding, retention of political power, and their precious jobs. I will have more to comment about the Republicans and their partners in legislative failure, the Democrats in a moment.

o o o o

For that moment, please allow me to briefly introduce myself, my purely patriotic intentions on your behalf, and frame the historic national crisis that *We the People*, shall now confront.

My name is Andrew J. (A J) Wildman. I am a regular and proud American citizen. I was born in Washington, DC of all places! I have lived most of my life in Maryland and Virginia, with three (3) years 2009 and thru 2011 in New Orleans. I am by profession an IT systems analyst and business problem-solver.

Mine has been a life-long interest in the observation of national level politics, as well as domestic and foreign policy. And since I have passed my 70th birthday, I have truly witnessed a lot! I worked in the IT Industry for some 30+ years in Washington, DC – for both private corporations and several federal agencies. I was never a federal employee. I am also proud to be a hard-core political Independent and know all too well that both National Parties have and are failing us. And the impact of their shared failure has only intensified these last 17 years. That is frankly due to the fact that they are professional politicians and not public problem-solvers that we so urgently need them to be. That is enough on me for now.

o o o o

Now let me frame this historical moment that we find ourselves standing in because, once again it is time to answer Democracy's call to arms. Once again, the Few must accept responsibility and act boldly for the protection and benefit of the many. Not with blood and arms, but with votes and solutions aimed squarely at the Common Good of 330,000,000 of our fellow Americans. Frankly, no one else matters...

In 1776, only 245 years ago, their First American Revolution was a bloody war that *created Democracy in Government*.

Today, We the People, their honored descendants will necessarily engage in a unique and aggressive Electoral war of sorts. The near-term outcome of this family squabble, will surely determine who *controls* our government and so will directly guide the future of American Democracy for the rest of this century and beyond. We the People, will once again rise up to win this war!

Further, I declare that the People's victory in this struggle shall necessarily create *Democracy in Economics* for the Common Good of our citizens and as yet another model for the struggling world.

I have our 2021/2022 Electoral plan to accomplish this victory. Granted, it could seem a bit strange at first hearing, but it does work out on paper. As I always found true in project management – that if your plan satisfies all the critical projects points to reach the desired result, that is all that is required. Thus, We need only to decide to work this Electoral plan together.

Yes, it is a historic challenge, but remember in 1776 the *Declaration of Independence* called the lowly English colonists to *declaration war* against the British Empire – the greatest fighting force of its time. And we all know how that turned out!

o o o o

Thomas Paine’s Challenging Words in 1776

The great writer of the American Revolution, Thomas Paine is my hero and writing inspiration.

To clarify the true need for the Public’s private consideration of these practical proposals, here are the opening words from Thomas Paine’s revolutionary pamphlet, *Common Sense* (January 1776). His historic pamphlet that George Washington credited with focusing the English colonists on the need for, as Paine wrote therein, “*a declaration of independence*” began with these sobering words,

Perhaps the sentiments contained in the following pages, are not YET sufficiently fashionable to procure them general favour; a long habit of not thinking a thing WRONG, gives it a superficial appearance of being RIGHT, and raises at first a formidable outcry in defense of custom. But the tumult soon subsides.

“Time makes more converts than Reason”

o o o o

It is early October of 2021. So now my fellow American citizens, let us be about Democracy’s business and strictly for the Common Good of all American citizens...

Because, when We the People stand and act together, no one and nothing will stop us. Amen!

o o o o

The Failure of Our Elected Leadership

As I have written too many times, the Republicans blatantly serve the will of the Wealthy (less than 5%) and some 8 to 10 Big Industries. Increasingly they have and are fighting the funding of viable Domestic programs and in 2017 passed a massive 1.5+ Trillion-dollar tax cut for those same big donors. Those that did not need it received 83% of the benefits of that greedy tax cut. The rest was thrown to some of the peasants.

Simply stated, today's Republican Party at the National, State, and even Local levels have lost their way and are fighting the Common Good of the Masses even more than before 2016. They have not allowed a mindless Infrastructure bill to pass for over five (5) years! Of course, the Republicans have never really characterized themselves as pro-people in the first place. True to form, it was under President Ronald Reagan, that the party deliberately decided to start "playing" to the "church-people" for votes and money. That does not get an amen!

Then there is the lost Democrat's Party. They have always characterized themselves as the party of the people and have at least worked toward that image. The Masses do feel that the Democrats will at least try to support them, especially in times of crisis. Fair to say that Democrats love to throw money at problems. However, increasingly over the last 20 years and the last 10 years, in particular, the Democrats have catered more and more to every *special interest* group they could find.

Not that social progress wasn't warranted at times, but they have gone too far with it in some cases. Most disturbingly, their most Liberal/Progressive followers chatter have made it seem as though many Americans, especially the White, are racists. We are not dammit! How can racists elect the first African-American President and then four (4) years later re-elect him?? The Democrats have gone so extreme with special interests in the last few years they seem to have forgotten that White American citizens, especially White Men even exist! And we resent it! So much for thinking I was just bashing the Republicans!!

Therefore, right about now in the Fall of 2021, it is totally true to declare that both the Republicans and Democrats, in both the US House and US Senate are thoroughly dysfunctional regarding the Common Good of 330,000,000 American Citizens.

And, We the People are mad as Hell and We are not going to take it anymore!

o o o o

I offer a unique and practical observation that further explains the growing dysfunction of the US Congress over the last few decades.

As we all know, Presidents come and go every 4 to 8 years and some are certainly better than others. However, the Congress has members that have literally served 40+ years in the US House and/or US Senate. The US Constitution states the job description of the 435 members of the US House and the 100 members of the US Senate – is to solve the problems of the American

people that cannot or will not be solved at the State or Local levels. We all also know how well that isn't working for us!

More and more over the last few decades, the Congress has skillfully and intentionally shifted the responsibility for producing actual solutions to the People's problems over to the Office of the President. Basically, acting to take themselves off the problem-solution hook! Thus, they now wait for the new President to come into office and demand solutions to big problems for "their consideration". Problems like Health Care or ending illegal Immigration. Then both Parties proceed to tear them up and little, typically, ever gets done. So, the *men and women* of the US Congress that are in office for many years, well-supported by staff, and have all the consultants they ask for – refuse to do their job and enjoy beating up someone that is only in office 4 to 8 years. It is orchestrated chaos aimed at solving nothing. Quietly maintaining the broken Status Quo that makes their Big donors rich and happy!

Again, the bottom line my disgusted fellow Americans, is that the elected members of US Congress in both National parties are acting to serve and protect the Status Quo. Because the Big donors that support the re-election campaigns of Federal, State, and Local incumbents expect things to stay just like they are. They are making money and controlling the government – just the way things are. Any questions? Like I said, ***Mad as Hell!***

Therefore folks, it is time for some of us to stand up and take the necessary Electoral actions to punish their gross negligence, Demand solutions to solvable public problems, and confront this real and present danger to our sacred Democracy. As was the case in our national ancestors American Revolution, the Few of us will be required to stand and fight for the Common Good, in order to preserve Democracy for the Many.

o o o o

Our Prudent and Practical 2022 – 7 Phase Electoral Game Plan

I address you herein not to continue the endless criticism and griping about our nation’s problems large and small. I am as fed-up with constant bad news as you are folks. Rather, we are here to consider that We the People have the Constitutional Authority and Electoral Responsibility to step-in and firmly correct this leadership crisis for the Common Good. And I mean starting now in 2021 and electorally targeting the November 2022 Congressional Election cycle.

Be aware that while this Electoral challenge will begin with the 2022 Congressional Election, it will necessarily continue into the 2024, 2026, and possibly the 2028 National election cycles.

So, let us take a first look at the Electoral Plan on how we will confront this crisis. This provides the prudent and practical framework for what we will accomplish over the next year. More details will be provided in the coming months, but we have a workable electoral plan.

o o o o

Relevant Words of Warning from the *Declaration of Independence*

The following is the second paragraph of the *Declaration of Independence*. Its revolutionary words from July 4, 1776 grimly apply to the political environment we are facing in 2021.

Granted that we are not currently fighting a foreign adversary, as our national ancestors were. However, the dictatorial leaning of the Republican Party leadership needs to be confronted for the sake of American Democracy. Please consider the bolded words.

o o o o

We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these *are Life, Liberty and the pursuit of Happiness*.—That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed, —***That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter*** or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness. Prudence, indeed, will dictate that Governments long established should not be changed for light and transient causes; and accordingly all experience hath shewn, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed.

Of course, we need not *alter our government*. However, we will need to act to protect our sacred Democracy and US Constitution from all enemies – both foreign and domestic. This time it is obviously domestic – the elected members of both National political parties.

Specifically, We are required to begin the deliberate replacement of the elected members of a government that are not only not solving our problems, but are taking large campaign donations from those that are profiting from their blatant lack of action.

Our national ancestors bravely stood-up in 1776 and accomplished what had never been done or even thought of before. They defeated King George II and the British Empire. In so doing, they gave us the US Constitution. That great document allows We the People to “correct” our government should its leadership drift away from the rules of Democracy. Given the Republican Party leadership’s behavior over the last five (5) years, in particular, it is most prudent to reflect on the words of the Founders in the *Declaration of Independence*. Always remember, it is the People’s, the Masses government to correct, control, and direct!

o o o o

My fellow Americans, WE MUST NOW execute our seemingly radical yet very practical Electoral Plan to begin the replacement of oppressive elected officials. Those would include many failed elected members of the US Congress and in the 50 State legislatures, as well. To be perfectly clear, both parties are surely to blame and both will lose many elected members.

Thus, we must call-out those in today’s Republican leadership that blatantly lies to the public, subverts institutional norms, and rejects long-held Democratic values. False leadership that for the sake of political power would destroy Democracy without hesitation. The elected Republicans in the US Congress and 50 State legislatures willingly drink the Kool-Aid they are given. No matter how many of their own voters are suffering from all their lies and inaction. And they all do it in order to keep their precious jobs.

Our national ancestors forcefully rejected the oppression of their English dictatorship.

We the People of 2021, will not allow the dictatorial desires of the Republican Party’s leadership and its mindless elected members to destroy our sacred Democracy. They deserve to receive the Public’s – the Voter’s wrath. And, we shall deliver it to them beginning in November 2022...

o o o o

Overview of Our Winning Electoral Strategy

This will summarize the Plan’s attitude and direction in our Electoral assault on the elected membership of the Republican and Democrat Parties. This narrative will focus on the US Congress in the coming 2022 Congressional Election. The 50 State legislatures will follow a similar process.

Like it or not this is Our Common-Sense Approach

We will act to do what needs to be done to accomplish the following:

- Overall, our intent is to defeat/remove as many Republican incumbents from the US Senate and US House, as possible. Because they are the obvious legislative roadblock.
- In each congressional race, we will approach this in one (1) of two (2) ways. First and preferably, we will select and run an Independent candidate that supports the TIPA Platform against the Republican incumbent. Realistically, we will have mixed results in that scenario in 2022.
Secondly, if we are not able to find an Independent to run, we will often support the Democrat’s candidate for the given seat. No, the Democrats are not getting off easy here.
- Starting in 2021 and throughout 2022, we will be publicly challenging all Democrats to begin aggressively supporting the TIPA Platform. Yes, this means Democrats that are currently in the US Senate and House. They must finally realize the Democrats do not have a publicly attractive platform.
The intent being that if we cannot run a TIPA Platform supporting Independent against a given Republican incumbent, we will pressure their Democrat opponent to support the TIPA Platform to the Voters. That way the Voters will see the Democrat as working to solve their real problems.
- The policy extremes of the Republican Conservatives and the Democrat Liberal/Progressives will be replaced. Replaced with Moderate and practical problem-solving legislation. And the Voters will love it!
- Our blunt message to the elected Democrats and their Party’s leadership is that they do not offer a legislative Platform that the vast majority of Voters and the nation wants or needs. The TIPA Platform presents the real problem-solutions that the People and nation needs. We will work with them, and push them, to begin submitting and promoting that legislation immediately. And continue to push them next year right up to the 2022 Election Day.
- The American public will observe and greatly appreciate our Independent intent to work “with” the Democrats to solve a given problem and then immediately move on to solving the next one. You know – Progress!
- Simply put, we are going to work aggressively to all but eliminate the Republican Party over the next few Election cycles, both in the US Congress and the 50 State legislatures. We will diligently work with the Democrats to solve the People’s problems over the next year and for many years to come.

o o o o

Our Critical Voting Objectives

Regarding the Republicans:

- What is most critical in 2022, my fellow Americans? We must work and vote to end the Republican legislative blockade in the US Senate.
- Luckily in 2022, some 20 Republican held Senatorial seats are up for election. We need to defeat as many of them, as possible. This significant Electoral achievement by the Voters will remove legislative power from the ‘little dictator’ of the last 21 years, Senator Mitch McConnell. Unfortunately, McConnell is not up for re-election in 2022.
- While the US House, remaining Moderate Republicans, if there are any could escape the Voters wrath in 2022. But, hopefully many of the extreme and legislatively ridiculous Conservatives could lose their precious House seats on November 8, 2022.

Regarding the Democrats:

- I firmly believe that the general public has had more than enough of the extreme and too often whining Democrats in the House and Senate.
- In 2022, some 14 Democrat held Senatorial seats up for election. Please remember that our primary goal is to defeat of the Republicans in the US Senate. Therefore, we must act cautiously when it comes to the US Senate.
To be clear, should a Democrat Senator loses in 2022, it must only be to one (1) of our Independent candidates.
- After the 2022 Election, our true goal must be to have least 60 Democrat and Independent, US Senators. Today that number is only 50. Working with a Senate majority, Democrats and Independents will work together to pass problem-solving legislation for the Common Good.
- Incumbent Democrats in the US House will need consider becoming a bit less Progressive in the Voter’s view. Again, we will be working all year with the incumbent Democrats encouraging them to embrace the problem-solving solutions in the TIPA Platform. The public needs to see the potential for real harmony and problem-solving teamwork among the members of the US Congress.

It may a bit overwhelming, but We can and will do all this for the Common Good of 330,000,000 American Citizens.

And now for our 2021/2022 Election Cycle 7-Phase Electoral Game Plan.

o o o o

The 2021/2022 Election Cycle 7-Phase Electoral Game Plan

Now let us take a first look at the seven (7) common sense 2021/2022 Electoral Campaign Phases in our historic American Reformation.

Phase I – Present a Problem-Solving Platform that 65% or More of Our Citizens Support

General timeframe: This Platform was decades in the making and is continuing!!

President Ronald Reagan once noted that, “*The people will not take to the streets unless they know what is in it for them*”.

The simple reason that Independent candidates and even Parties often fail to attract the Public’s attention and gain their critical voting support is because they lack a comprehensive Platform of problem solutions. Solutions that the public can connect with and see the true value of to themselves and/or the nation. Independents historically enter the national political arena championing only one (1) or two (2) popular issues. Granted they are often important issues, but the public quickly begins to lose interest when a given candidate cannot offer answers to multiple problems. There is simply no real depth to their message.

Good News Folks – Our Independent Candidates Already Have an Acceptable Platform

Our Independent Movement will not have that problem. Our potential Independent candidates across all 50 States need not worry about developing their set of proposals. They will have the well-documented and comprehensive TIPA Independent Platform located at *CommonSense2nd.com*. It already contains 40+ publicly acceptable problem-solving proposals, several suggested Constitutional Amendments, and much more. I personally developed those proposals through countless discussions with people of all types and opinions and over many years.

I began writing the non-fiction political book, *The Second Coming of Common Sense (CS)* on July 1, 2005. I completed and self-published the 718-page book in early February 2008. The book’s centerpiece is, An American Agenda comprised of 27 proposals, plus practical social and economic perspectives. Since then, more than 13 proposals have been added that focus primarily on the Cost-of-Living struggles of our citizens.

All those proposals were developed to have a 65% or better approval rate with the Public. Again, Voters must see the practical value to themselves when considering voting for the Independent candidate. They must know that our candidates will aggressively submit such legislation and have it passed into law. Actually, do their job for the Common Good.

As stated, I am the Founder of *The Independent Party of America (TIPA)*.

It is technically important to note that our Independent candidates in the 2022 Election, will not be running under the name of the TIPA Independent Party! In the 2022 campaign cycle, they will technically be required to run as Un-Affiliated candidates. However, they will all be fully

committed to and promote the TIPA Platform in their campaign to the Voters. Or they will not become our candidates! I will explain this approach.

This “*candidate qualification technicality*” is important to understand. So, allow me to explain why that approach is both totally required and strategically wise for us. For an Independent candidate to run under the name of a new political party, that Party is required to establish a formal party office and become a legal entity in any and every state they plan to run in.

The set-up and creation of such offices is time consuming, a bit tedious, and costly. That is the reason why Independent Presidential candidates fail. They often don’t start early enough and do not realize the overhead required to become a legitimate candidate in all 50 States. We of course are talking about National candidates in 2022, but the same qualifications apply at the State level for anyone running under a Party designation.

The National Parties in each State often make the rules and deadlines regarding “other” candidates a bit more difficult whenever they can.

For example in the 2022 Election cycle, my State of Maryland allows such candidates to register until early in the Summer of 2022.

At the same time, the State of Texas requires such candidates to register by **December 13, 2021**. A full eleven (11) months before Election Day 2022! No big surprise there!

They are working to kill any upstart competition. However, we are well aware of the rules and our Plan accounts for them to the greatest extent possible. No problem.

Once we get through the 2022 Election cycle, there will be ample time to create the proper nationwide TIPA Party infrastructure. We win!

Therefore, folks the TIPA Party offers the Voters something that neither the Republicans or Democrats can present to the frustrated Electorate. An actual, detailed problem-solving legislative Platform aimed at confronting and resolving many of the social and economic problems of our nation.

The following list presents what I view as 20 of the most publicly critical proposals from the TIPA Platform. These critical public issues will drive the initial public awareness of our problem-solving Independent Movement. More proposals will be presented as the campaign progresses.

The Critical Policy Solutions Chart

1. Food for All Citizens
2. Implement the US Re-Employment System
3. Suspend ALL Immigration for 2 Years
4. Demanding – US Constitution Abortion Rights Amendment
5. No Financial Reparations for Black Americans
6. The US Wealth Tax – The Economic Peace Tax (EPT) Policy.

7. A Fixed Address for ALL of Our Citizens
8. Establish National White Americans Day
9. Cannabis Industry as a Small Business, only!
10. Hemp for American Farmers – Finally
11. Near-Term Reassignment of Bad Cops
12. The 90-Day Death Penalty (DP) Reform
13. Reformation of All Family Support Services
14. Reinstatement of the Military Selective Service Program
15. Prostitution will be Federally Legalized
16. The US Recycling Industry – For Jobs and the Environment
17. Refunding Covid19 Overcharges – Pandemic Wartime Profiteering
18. Save the Truckers Jobs
19. Regarding Our Failing Environment
20. Health Care in America is a Disgrace

Please remember these are some of the “Publicly Acceptable” 40+ problem-solving proposals and much more to be found on the TIPA Platform website, **www.CommonSense2nd.com**

Phase II – Public Awareness of Independent Party Movement and Electoral Plan

General timeframe: Starting October 2021 and forward...

- We need to promote and quickly build the Public’s awareness of, comfort with, and acceptance of this problem-solving Platform and this Independent Movement.
- Who could be interested in our Independent candidates and Movement? Most Americans!
 - Independents and Moderates the most!
 - Frustrated Democrats
 - Frustrated Republicans
 - RINOs!!!
 - Patriots of all types fed-up with the way Washington doesn’t work for them.
 - Those disgusted with the dysfunction of the US Congress, their State and Local legislatures.
 - Others, including those just sick and tired of all levels of government!
- What we need to communicate to the Voters:
 - The campaign strategy to actually replace failed incumbents of both Parties.
 - The TIPA Platform located on the website www.CommonSense2nd.com.
 - The search is on for Independent candidate(s) from their State, US District, and local area.

Phase III – Building Local TIPA Chapters and Researching Candidate Qualifications

Building Local TIPA Chapters

General timeframe: approximately Fall of 2021 thru 2022

- This political Movement will logically be initially driven by Independents and Moderates that want problems to be solved and the government to work For the People! Disenchanted Democrats and Republicans will join them as the months go by.
- We will need to begin forming a National Network of Local TIPA Chapters in every County, Burrough, Parrish, and Major Cities.
- Interested Americans will use social networking to connect with like-minded neighbors. They will help to build a true grassroots Independent political Movement and change American politics!

Research and Document State-by-State Candidate Qualifications and Deadlines

General timeframe: Started September 2021 and into the First Quarter of 2022

Our people will run as Petition or Write-In Candidates

- We will continue my research into the “non-party affiliated” candidate qualifications for each State. We will be documenting the State-by-State Qualifications for Petition and Write-In candidates. That may sound strange at first, but hang in there. Because this campaign approach will work for us and there is nothing, they can do to stop us!! Once this movement picks up public interest and support, collecting the required number of signatures for each seat will not be a problem. Also note that Petition candidate names are printed on the standard Election Day Ballot! Exactly where we want to be, folks!!
- While our primary focus is on the US Senate and House, we cannot let the 50 State Congresses off the hook. That because of all the devious games they are now playing with Voter access and Abortion rights. The research is a little tedious, but not difficult. Most State elections staff are very helpful people. I have performed this 50 State research in past elections.

Phase IV – Identifying and Selecting Independent Candidates for 2022 Election

General timeframe: starting early in 2022 and ending at the same time and possibly sooner than the regular National Party Primary in any given State.

- The Local TIPA Chapters within each State will coordinate the identification and selection of their Independent candidates for the US House, US Senate, and other offices.
- More information and guidance will be forthcoming on the candidate selection process in the next several months. There is technically the potential for all 435 US Districts to put forth such 2022 candidates. In 2022, there will be 33 States electing US Senators.

- Starting in the first quarter 2022, Local Chapters will begin to identify their candidates for office to replace failing incumbents of both Parties. No, we are not trying replace all 435 House and the 33 Senate members up for re-election in November 2022.
- Given our current political crisis, the Republicans deserve and should take the greater beating in 2022. There are certainly a number Democrats that need to go home, as well. A primary focus is both Conservative and Liberal/Progressive *extremist* that are not worth having in elected office. Lately they are too often only there to disturb the process and not to fix anything. So, they can go...
- One (1) important Independent candidate requirement right up front is that we do not want any experienced lawyers to be selected. More on the common sense of that later!

Phase V – Submit Candidate Paperwork, Conduct Campaign, Collecting Signatures, and Voter Registration

General timeframe: approximately from April 2021 and into July 2022; this will vary greatly based upon State-by-State guidelines.

- Once the Local Chapter citizens have selected their candidate that will support the TIPA Platform, required paper work will be submitted to the respective State Board of Elections, and the candidates will begin campaigning for their respective US District, Senate, and other State offices.
- One encouraging and important *funds saving point* is that our Independent candidates will have the great benefit of the nationwide publicity and enthusiasm surrounding this underdog political Movement. Our candidates will not require millions of dollars to run for and win political office.

Phase VI – Voter Registration, Plan Transportation for the Nov 8th Election

General timeframe: approximately all of 2022 thru October 2022!!!

- Many Voters do not know that most States allow same year registration into October before the election.
- Registration is critical to the success of our Independent candidates

Phase VII – Get Out the Vote on November 8, 2022 – We the People Win!!!

Timeframe approximately September 2021 thru mid-January 2022

- Local TIPA Chapters will work to help people get to the Polls on Election Day – Nov 8th!
- **Then we will – Get Out the Vote on November 8, 2022.**
- **We the People and Democracy Wins!!!**

o o o o

Over the next year, We can realistically determine to remove the first layer of dysfunctional elected officials at the Federal, State, and even Local levels. And while the Republicans have objectively become an active menace against Democracy and our Common Good, the Democrats also need to be sorted out!

At the same time, we will Demand that Federal and State governments work to fix many long-standing problems. We will loudly and aggressively challenge incumbent politicians of both Parties to begin implementing the problem-solving proposals in the TIPA Platform!

Our society and economy require these problem-solving American Reforms – NOW!!!

o o o o

In Closing – An Encouraging Historical Perspective

Let us consider the following historical frame of reference in the Great American Journey since 1776, over these 245 years of American Democracy:

1. The First and historic American Revolution was fought to secure national independence and *Democracy in Government* for our national ancestors.
2. The *American Revolution* (1776 to 1781) was technically our first Civil War even though we never think of it that way. The English colonists fought a bloody war against their English countrymen representing King George II. They won their war and their freedom from English bondage. Their struggle **Created** our Democracy.

Killed	25,324	Wounded	8,445
--------	--------	---------	-------

3. Some 80 years later, the *American Civil War* (1861 to 1865) was then technically our second Civil War. Americans from the Northern states fought horrific battles with Americans from the Southern states. It was citizens in bloody fighting to determine whether or not America would remain a sovereign nation. The North prevailed and the Union was maintained. Their terrible struggle **Preserved** our Democracy.

Killed and Wounded

The North Killed	363,020	Wounded	281,104
The South Killed	199,110	Wounded	137,102

4. Now some 156 years later in 2021, we must now face our *Third Civil War* (2021 to 202x). Like it or not folks, we stand a handful of years into a public confrontation that will decide the fate of American Democracy and the Economic well-being of everyone that we know. Read that a few times if you need to, because it is the Plain Truth.

So, let's face that reality and join and work together to win this historic battle for the Common Good of all American citizens. And to provide the hard example to the world that the Good of the Masses will certainly prevail over the Evil and Greed of the Few.

Our Civil War is being fought to determine who will not only **Control** our Democracy, but that American Democracy will continue to exist. And it most certainly will...

5. Therefore, I do truly declare to you that we are now facing our *Second and Final American Revolution*. Our historic Second American Revolution will be peacefully contested by the informed Votes of our citizens. In a way it is being fought to **preserve Democracy in Government**.

Most importantly, our Revolution my fellow Americans, will serve to define and secure **Democracy in Economics** for ourselves and all those that will follow us. That is "our historic" challenge my fellow Americans and We the People will not be defeated.

o o o o

All that said, folks. I hope you can sense the historic moment in which we find ourselves. Our nation is now 12 score and five (5) in the making. America was originally colonized and grew only due to the brave men and women that stepped forward and did whatever had to be done to Create and Preserve this nation. It is now our time to stand together against those that would destroy Democracy and rob us of our social and economic freedoms. And that We will do!

Therefore, just as my revolutionary hero Thomas Paine did for our national ancestors, I am here to humbly inform you on what we can do to be victorious in this historic struggle. In his words in *Common Sense*, January 1776, Paine called for a, *declaration of independence*. He then wrote about the war effort to come. He then spent the war years writing and helping to fight for the Revolution. He traveled with George Washington and was with him at Valley Forge.

I am here my fellow Americans to both encourage and inform you that there is a way that We can electorally begin to reverse the downward spiral of this dysfunctional and failing government – and the US Congress, in particular. I will be here front and center, working for and with you through this most noble of human struggles.

o o o o

The word is **“Reformation”**. We are way beyond thinking that “Change” could fix anything. Some years ago, a major corporation had a marketing campaign and its driving message was, *“The System is the Solution”*. As a professional System Analyst and Designer, my response to that even then was, *“Then the current System must be the Problem!”* Thus, the self-serving and perpetuating *Congressional System* that drives the US Congress must and will be smashed.

In the early 1990’s a famous Presidential campaign slogan was, *“It’s the Economy, stupid”*.

In the 2021/2022 Congressional campaign cycle, it must be said that for the majority of Americans, *“It is the Cost-of-Living, dummy”*. And we need to fix it, NOW!!!

Therefore, *We the People*, now need to be about our nation’s business...

So, I pray that God will continue to bless the United States of America.

Thank you and take care my fellow Americans,

A J Wildman
