Our 2021/2022 Prudent and Practical 7-Phase Electoral Game Plan

I address you herein not to continue the endless criticism and griping about our nation's problems large and small, because I am as fed-up with the constant bad news as you are folks. Rather, we are here to consider that We the People have the Constitutional Authority and Electoral Responsibility to step-in and firmly correct this leadership crisis for the Common Good. And I mean starting now in 2021 and electorally targeting the November 2022 Congressional Election cycle.

Be aware that while this Electoral challenge will begin with the 2022 Congressional Election, it will necessarily continue into the 2024, 2026, and possibly the 2028 National election cycles.

So, let us take a first look at the Electoral Plan on how we will confront this crisis. This provides the prudent and practical framework for what we will accomplish over the next year. More details will be provided in the coming months, but we have a workable electoral plan.

o o o o

Relevant Words of Warning from the *Declaration of Independence*

The following is the second paragraph of the *Declaration of Independence*. Its revolutionary words from July 4, 1776 grimly apply to the political environment we are facing in 2021.

Granted that we are not currently fighting a foreign adversary, as our national ancestors were. However, the dictatorial leaning of the Republican Party leadership needs to be confronted for the sake of American Democracy. Please consider the bolded words.

We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these *are Life, Liberty and the pursuit of Happiness*.—That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed, —***That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter*** or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness. Prudence, indeed, will dictate that Governments long established should not be changed for light and transient causes; and accordingly all experience hath shewn, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed.

o o o o

Of course, we need not ***alter our government***. However, we will need to act to protect our sacred Democracy and US Constitution from all enemies – both foreign and domestic. This time it is obviously domestic – the elected members of both National political parties.

Specifically, We are required to begin the deliberate replacement of the elected members of a government that are not only not solving our problems, but are taking large campaign donations from those that are profiting from their blatant lack of action.

Our national ancestors bravely stood-up in 1776 and accomplished what had never been done or even thought of before. They defeated King George II and the British Empire. In so doing, they gave us the US Constitution. That great document allows We the People to “correct” our government should its leadership drift away from the rules of Democracy. Given the Republican Party leadership’s behavior over the last five (5) years, in particular, it is most prudent to reflect on the words of the Founders in the *Declaration of Independence*. Always remember, it is the People’s, the Masses government to correct, control, and direct!

o o o o

My fellow Americans, WE MUST NOW execute our seemingly radical yet very practical Electoral Plan to begin the replacement of oppressive elected officials. Those would include many failed elected members of the US Congress and in the 50 State legislatures, as well. To be perfectly clear, both parties are surely to blame and both will lose many elected members.

Thus, we must call-out those in today’s Republican leadership that blatantly lies to the public, subverts institutional norms, and rejects long-held Democratic values. False leadership that for the sake of political power would destroy Democracy without hesitation. The elected Republicans in the US Congress and 50 State legislatures willingly drink the Kool-Aid they are given. No matter how many of their own voters are suffering from all their lies and inaction. And they all do it in order to keep their precious jobs.

Our national ancestors forcefully rejected the oppression of their English dictatorship.

We the People of 2021, will not allow the dictatorial desires of the Republican Party’s leadership and its mindless elected members to destroy our sacred Democracy. They deserve to receive the Public’s – the Voter’s wrath. And, we shall deliver it to them beginning in November 2022...

o o o o

Overview of Our Winning Electoral Strategy

This will summarize the Plan’s attitude and direction in our Electoral assault on the elected membership of the Republican and Democrat Parties. This narrative will focus on the US Congress in the coming 2022 Congressional Election. The 50 State legislatures will follow a similar process.

Whether We Like it or Not this is Our Common-Sense Approach

We will act to do what needs to be done to accomplish the following:

- Overall, our intent is to defeat/remove as many Republican incumbents from the US Senate and US House, as possible. Because they are the obvious legislative roadblock.
- In each congressional race, we will approach this in one (1) of two (2) ways. First and preferably, we will select and run an Independent candidate that supports the TIPA Platform against the Republican incumbent. Realistically, we will have mixed results in that scenario in 2022.
Secondly, if we are not able to find an Independent to run, we will often support the Democrat’s candidate for the given seat. No, the Democrats are not getting off easy here.
- Starting in 2021 and throughout 2022, we will be publicly challenging all Democrats to begin aggressively supporting the TIPA Platform. Yes, this means Democrats that are currently in the US Senate and House. They must finally realize the Democrats do not have a publicly attractive platform.
The intent being that if we cannot run a TIPA Platform supporting Independent against a given Republican incumbent, we will pressure their Democrat opponent to support the TIPA Platform to the Voters. That way the Voters will see the Democrat as working to solve their real problems.
- The policy extremes of the Republican Conservatives and the Democrat Liberal/Progressives will be replaced. Replaced with Moderate and practical problem-solving legislation. And the Voters will love it!
- Our blunt message to the elected Democrats and their Party’s leadership is that they do not offer a legislative Platform that the vast majority of Voters and the nation wants or needs. The TIPA Platform presents the real problem-solutions that the People and nation needs. We will work with them, and push them, to begin submitting and promoting that legislation immediately. And continue to push them next year right up to the 2022 Election Day.
- The American public will observe and greatly appreciate our Independent intent to work “with” the Democrats to solve a given problem and then immediately move on to solving the next one. You know – Progress!
- Simply put, we are going to work aggressively to all but eliminate the Republican Party over the next few Election cycles, both in the US Congress and the 50 State legislatures. We will diligently work with the Democrats to solve the People’s problems over the next year and for many years to come.

o o o o

Our Critical Voting Objectives

Regarding the Republicans:

- What is most critical in 2022, my fellow Americans? We must work and vote to end the Republican legislative blockade in the US Senate.
- Luckily in 2022, some 20 Republican held Senatorial seats are up for election. We need to defeat as many of them, as possible. This significant Electoral achievement by the Voters will remove legislative power from the ‘little dictator’ of the last 21 years, Senator Mitch McConnell. Unfortunately, McConnell is not up for re-election in 2022.
- While the US House, remaining Moderate Republicans, if there are any could escape the Voters wrath in 2022. But, hopefully many of the extreme and legislatively ridiculous Conservatives could lose their precious House seats on November 8, 2022.

Regarding the Democrats:

- I firmly believe that the general public has had more than enough of the extreme and too often whining Democrats in the House and Senate.
- In 2022, some 14 Democrat held Senatorial seats up for election. Please remember that our primary goal is to defeat of the Republicans in the US Senate. Therefore, we must act cautiously when it comes to the US Senate.
To be clear, should a Democrat Senator loses in 2022, it must only be to one (1) of our Independent candidates.
- After the 2022 Election, our true goal must be to have least 60 Democrat and Independent, US Senators. Today that number is only 50. Working with a Senate majority, Democrats and Independents will work together to pass problem-solving legislation for the Common Good.
- Incumbent Democrats in the US House will need consider becoming a bit less Progressive in the Voter’s view. Again, we will be working all year with the incumbent Democrats encouraging them to embrace the problem-solving solutions in the TIPA Platform. The public needs to see the potential for real harmony and problem-solving teamwork among the members of the US Congress.

It may a bit overwhelming, but We can and will do all this for the Common Good of 330,000,000 American Citizens.

And now for our 2021/2022 Election Cycle 7-Phase Electoral Game Plan.

o o o o

The 2021/2022 Election Cycle 7-Phase Electoral Game Plan

Now let us take a first look at the seven (7) common sense 2021/2022 Electoral Campaign Phases in our historic American Reformation.

Phase I – Present a Problem-Solving Platform that 65% or More of Our Citizens Support

General timeframe: This Platform was decades in the making and is continuing!!

President Ronald Reagan once noted that, “*The people will not take to the streets unless they know what is in it for them*”.

The simple reason that Independent candidates and even Parties often fail to attract the Public’s attention and gain their critical voting support is because they lack a comprehensive Platform of problem solutions. Solutions that the public can connect with and see the true value of to themselves and/or the nation. Independents historically enter the national political arena championing only one (1) or two (2) popular issues. Granted they are often important issues, but the public quickly begins to lose interest when a given candidate cannot offer answers to multiple problems. There is simply no real depth to their message.

Good News Folks – Our Independent Candidates Already Have an Acceptable Platform

Our Independent Movement will not have that problem. Our potential Independent candidates across all 50 States need not worry about developing their set of proposals. They will have the well-documented and comprehensive TIPA Independent Platform located at CommonSense2nd.com. It already contains 40+ publicly acceptable problem-solving proposals, several suggested Constitutional Amendments, and much more. I personally developed those proposals through countless discussions with people of all types and opinions and over many years.

I began writing the non-fiction political book, *The Second Coming of Common Sense (CS)* on July 1, 2005. I completed and self-published the 718-page book in early February 2008. The book’s centerpiece is, An American Agenda comprised of 27 proposals, plus practical social and economic perspectives. Since then, more than 13 proposals have been added that focus primarily on the Cost-of-Living struggles of our citizens.

All those proposals were developed to have a 65% or better approval rate with the Public. Again, Voters must see the practical value to themselves when considering voting for the Independent candidate. They must know that our candidates will aggressively submit such legislation and have it passed into law. Actually, do their job for the Common Good.

As stated, I am the Founder of *The Independent Party of America (TIPA)*.

It is technically important to note that our Independent candidates in the 2022 Election, will not be running under the name of the TIPA Independent Party! In the 2022 campaign cycle, they will technically be required to run as Un-Affiliated candidates. However, they will all be fully

committed to and promote the TIPA Platform in their campaign to the Voters. Or they will not become our candidates! I will explain this approach.

This “*candidate qualification technicality*” is important to understand. So, allow me to explain why that approach is both totally required and strategically wise for us. For an Independent candidate to run under the name of a new political party, that Party is required to establish a formal party office and become a legal entity in any and every state they plan to run in.

The set-up and creation of such offices is time consuming, a bit tedious, and costly. That is the reason why Independent Presidential candidates fail. They often don’t start early enough and do not realize the overhead required to become a legitimate candidate in all 50 States. We of course are talking about National candidates in 2022, but the same qualifications apply at the State level for anyone running under a Party designation.

The National Parties in each State often make the rules and deadlines regarding “other” candidates a bit more difficult whenever they can.

For example, in the 2022 Election cycle, my State of Maryland allows such candidates to register until early in the Summer of 2022.

At the same time, the State of Texas requires such candidates to register by **December 13, 2021**. A full eleven (11) months before Election Day 2022! No big surprise there!

They are working to kill any upstart competition. However, we are well aware of the rules and our Plan accounts for them to the greatest extent possible. No problem.

Once we get through the 2022 Election cycle, there will be ample time to create the proper nationwide TIPA Party infrastructure. We win!

Therefore, folks the TIPA Party offers the Voters something that neither the Republicans or Democrats can present to the frustrated Electorate. An actual, detailed problem-solving legislative Platform aimed at confronting and resolving many of the social and economic problems of our nation.

The following list presents what I view as 20 of the most publicly critical proposals from the TIPA Platform. These critical public issues will drive the initial public awareness of our problem-solving Independent Movement. More proposals will be presented as the campaign progresses.

The Critical Policy Solutions Chart

1. Food for All Citizens
2. Implement the US Re-Employment System
3. Suspend ALL Immigration for 2 Years
4. Demanding – US Constitution Abortion Rights Amendment
5. No Financial Reparations for Black Americans
6. The US Wealth Tax – The Economic Peace Tax (EPT) Policy.

7. A Fixed Address for ALL of Our Citizens
8. Establish National White Americans Day
9. Cannabis Industry as a Small Business, only!
10. Hemp for American Farmers – Finally
11. Near-Term Reassignment of Bad Cops
12. The 90-Day Death Penalty (DP) Reform
13. Reformation of All Family Support Services
14. Reinstatement of the Military Selective Service Program
15. Prostitution will be Federally Legalized
16. The US Recycling Industry – For Jobs and the Environment
17. Refunding Covid19 Overcharges – Pandemic Wartime Profiteering
18. Save the Truckers Jobs
19. Regarding Our Failing Environment
20. Health Care in America is a Disgrace

Please remember these are some of the “Publicly Acceptable” 40+ problem-solving proposals and much more to be found on the TIPA Platform website, **www.CommonSense2nd.com**

Phase II – Public Awareness of Independent Party Movement and Electoral Plan

General timeframe: Starting October 2021 and forward...

- We need to promote and quickly build the Public’s awareness of, comfort with, and acceptance of this problem-solving Platform and this Independent Movement.
- Who could be interested in our Independent candidates and Movement? Most Americans!
 - Independents and Moderates the most!
 - Frustrated Democrats
 - Frustrated Republicans
 - RINOs!!!
 - Patriots of all types fed-up with the way Washington doesn’t work for them.
 - Those disgusted with the dysfunction of the US Congress, their State and Local legislatures.
 - Others, including those just sick and tired of all levels of government!
- What we need to communicate to the Voters:
 - The campaign strategy to actually replace failed incumbents of both Parties.
 - The TIPA Platform located on the website www.CommonSense2nd.com.
 - The search is on for Independent candidate(s) from their State, US District, and local area.

Phase III – Building Local TIPA Chapters and Researching Candidate Qualifications

Building Local TIPA Chapters

General timeframe: approximately Fall of 2021 thru 2022

- This political Movement will logically be initially driven by Independents and Moderates that want problems to be solved and the government to work For the People! Disenchanted Democrats and Republicans will join them as the months go by.
- We will need to begin forming a National Network of Local TIPA Chapters in every County, Burrough, Parrish, and Major Cities.
- Interested Americans will use social networking to connect with like-minded neighbors. They will help to build a true grassroots Independent political Movement and change American politics!

Research and Document State-by-State Candidate Qualifications and Deadlines

General timeframe: Started September 2021 and into the First Quarter of 2022

Our people will run as Petition or Write-In Candidates

- We will continue my research into the “non-party affiliated” candidate qualifications for each State. We will be documenting the State-by-State Qualifications for Petition and Write-In candidates. That may sound strange at first, but hang in there. Because this campaign approach will work for us and there is nothing, they can do to stop us!! Once this movement picks up public interest and support, collecting the required number of signatures for each seat will not be a problem. Also note that Petition candidate names are printed on the standard Election Day Ballot! Exactly where we want to be, folks!!
- While our primary focus is on the US Senate and House, we cannot let the 50 State Congresses off the hook. That because of all the devious games they are now playing with Voter access and Abortion rights. The research is a little tedious, but not difficult. Most State elections staff are very helpful people. I have performed this 50 State research in past elections.

Phase IV – Identifying Independent Candidates Committed to the TIPA Platform

General timeframe: starting as early as late 2021 and ending at the same time and possibly sooner than the regular National Party Primaries in any given State.

- The Local TIPA Chapters within each State will coordinate the identification and selection of their Independent candidates for the US House, US Senate, and other offices.
- More information and guidance will be forthcoming on the candidate selection process in the next several months. There is technically the potential for all 435 US Districts to put forth such 2022 candidates. In 2022, there will be 33 States electing US Senators.

- Starting in the first quarter 2022, Local Chapters will begin to identify their candidates for office to replace failing incumbents of both Parties. No, we are not trying replace all 435 House and the 33 Senate members up for re-election in November 2022.
- Given our current political crisis, the Republicans deserve and should take the greater beating in 2022. There are certainly a number Democrats that need to go home, as well. A primary focus is both Conservative and Liberal/Progressive *extremist* that are not worth having in elected office. Lately they are too often only there to disturb the process and not to fix anything. So, they can go...
- One (1) important Independent candidate requirement right up front is that we do not want any experienced lawyers to be selected. More on the common sense of that later!

Phase V – Submit Candidate Paperwork, Conduct Campaign, Collecting Signatures, and Voter Registration

General timeframe: approximately from April 2021 and into July 2022; this will vary greatly based upon State-by-State guidelines.

- Once the Local Chapter citizens have selected their candidate that will support the TIPA Platform, required paper work will be submitted to the respective State Board of Elections, and the candidates will begin campaigning for their respective US District, Senate, and other State offices.
- One encouraging and important *funds saving point* is that our Independent candidates will have the great benefit of the nationwide publicity and enthusiasm surrounding this underdog political Movement. Our candidates will not require millions of dollars to run for and win political office.

Phase VI – Voter Registration, Plan Transportation for the Nov 8th Election

General timeframe: approximately all of 2022 thru October 2022!!!

- Many Voters do not know that most States allow same year registration into October before the election.
- Registration is critical to the success of our Independent candidates

Phase VII – Get Out the Vote on November 8, 2022 – We the People Win!!!

Timeframe approximately September 2021 thru mid-January 2022

- Local TIPA Chapters will work to help people get to the Polls on Election Day – Nov 8th!
- **Then we will – Get Out the Vote on November 8, 2022.**
- **We the People and Democracy Win!!!**

o o o o

In Closing – We the People Can and Will Meet this Challenge

Over the next challenging year, We can realistically determine to remove the first layer of dysfunctional elected officials at the Federal, State, and even Local levels. And while the Republicans have objectively become an active menace against Democracy and our Common Good, the Democrats also need to be sorted out!

At the same time, we will Demand that Federal and State governments work to fix many long-standing problems. And that means prior to the 2022 Congressional Election! We will loudly and aggressively challenge incumbent politicians of both Parties to begin implementing the problem-solving proposals in the TIPA Platform!

Our society and economy require these problem-solving American Reforms – NOW!!!

o o o o

Therefore, *We the People*, now need to be about our nation's business...

So, I pray that God will continue to bless the United States of America.

Thank you and take care my fellow Americans,

A J Wildman
