***“Put Your Wildman in the US Senate
and the US Congress will Never be the Same,
You Could Actually Grow to Like It !!”***

“Everything in its own time”

That is the classic line.

In case you might be thinking, does this guy know what he is talking about?

I have personally been working toward this unexpected political result for some 19 years. For longer than that, I have been an observer of domestic and foreign policy, and of the usual political games between the two (2) National Parties. Basically, learning to understand politicians and the legislative process. It is not for everyone, but I like it.

Now folks, I was 21 years old in 1969. That makes me a second year Baby Boomer and proud of it. Therefore, I have been a concerned witness to many past events both positive and negative. Over those years, I went from being raised a Republican, to a Democrat for a while, and finally became a hard-core, political Independent for several decades now.

Solving Problems Often Depends Upon the Decider's Needs

In business problem-solving, you must first surround a given problem situation before you can begin to develop practical solution(s). The problem situation must be considered from as many different and often opposing viewpoints, as possible.

Only then, can you weigh-out any alternative solutions and their related benefits and costs. Then comes the critical decision process. More and more over recent decades such national legislative decisions are being made without practical concern for the Masses. National and State legislators are serving corporate spreadsheets, stockholder dividends, and protecting executive compensation. Politicians now blatantly work to maintain the Status Quo, because those that fund their reelections like things running just the way they are. That is why in too many cases the final decision is to do absolutely nothing. Hence the title of, “do nothing Congress”. And the pure fact is that for some 20 years, the US Senate has become the place where good legislation goes to die under the abusive control of the little dictator – Senator Mitch McConnell. Especially, the last 6 years!

But the times they are a changing and in 2022. Because, We will act and the American Reformation will begin. In 2022, the People will be informed that We still have the Electoral Power to override the broken Congressional System. So, stay tuned and together we will uncover our Independent Electoral Plan. I will show you that We have the real ability to capture both Republican and Democrat seats in the US House and Senate in 2022! We can do it in 50 broken State Houses across the country, as well. We can and will take a good bite out of the self-serving US Congressional System in 2022. Then in 2024, We will be even stronger and will finish the job! And they can't stop us! Because, the Founding Fathers left us an Electoral back door that has not yet been closed by the Parties.

My presentation of this and other meaningful problem-solving proposals to the public is intended to generate a lively and productive debate in 2022. Practical perspectives will be provided on many topics of interest to the Public and the Voters. Real solutions to real problems. It will not be boring! We will ask incumbents across the country questions they do not want to answer.

We Must First Determine to Surround Our Common Problems

Americans hereby Demand that in 2022, the aggressive Reformation of our useless Immigration will begin. We will finally act protect and secure our National Borders. No new Illegal Occupants (IOs) will be allowed.

First Things First

Surrounding America’s social, economic, and climate problems requires that we first gain absolute control over our national borders. Consider that, the federal government openly admits to there being “around” **ten (10) million IOs** from all over the world, that are now in our country. They really do not know how many there are.

Our first legislative Demand will allow us to encircle our domestic policy issues. It is the long-ignored problem of securing our national borders. One (1) that rejects all those not entering under the well-established National Immigration Quota System. We currently permit about one (1) million people to legally enter our nation every year. There is a formal annual quota established for each involved nation. The bottom line is that the system is terminally broken and the US Congress does not have the will, the guts or the collective brains to fix it.

Therefore, once again We the People must lead. We must tell the legislators what We expect and that it must happen NOW! So, here it comes folks. The American Reformation of 2022.

Therefore, We the People, do hereby Demand that as of April 15, 2022 – the permanent also suspension of ALL non-Quota immigration. That suspension will include any “chain” migration.

During that same period, we will implement an American National Id System. A grossly necessary and grand national housekeeping will then take place. Some percentage of IOs in our nation will be “allowed” to stay – while others will not. They will be deported back to their own country. There will be much more on this Hot Topic, as you can well imagine.

The US Congress is incompetent and will not legislate to fix our terminally broken Immigration system.

Therefore, We the People, Demand the borders to be closed to all future IO violations.

The TIPA Platform Proposal on Immigration Reform 2022

Getting to the point, over the last 36 years – neither the Republicans and Democrats in Congress, or all Democrat and Republican, White House Administrations – has acted to secure our sovereign national borders.

In 1986, then President Reagan in his second term had Congress pass the Immigration Reform and Control Act (IRAC) of 1986. At the signing ceremony, Reagan declared that going forward “*the government would then go after employers to quit hiring illegals*”. Reagan’s comment was a total joke and most people knew it.

As a note: Always remember that *there are lies and dam lies – and statistics*. Always ask yourself who is providing those stats and could they have any selfish intentions in preparing those numbers.

So, Let's Look at Some Very Relevant Numbers

The following three (3) scenarios present, a sobering analysis of our failed Immigration system and dysfunctional national leadership. It draws a line between current policies and future Reformation legislation. And it will make many Americans rightfully angry and disgusted with our currently elected leadership – again!!

First

The 1986 IRAC legislation was only supposed to legalize some one-and-a-half (1.5) million Illegal Occupants (IOs) that were inside the US. In the end, it was closer to three (3) million, many of whom were using fraudulent documentation they bought off the Black Market.

During my 35-year Information Technology (IT) career mostly in Washington, DC I spent five (5) years working as a consultant for the US Immigration and Naturalization Service (INS). Among other projects, myself and another guy developed a software upgrade to the Check-In computer system used at Land and International airport Ports-of-Entry to validate those entering our country. Thus, I have some practical insights into the ongoing Border games. That Check-in system was called the *National Automated Immigration and Legalization System II* – or *NAILS II*. A cute name, don't you think!!!

Of course, while the majority of those ten (10) million IOs did enter via US/Mexico border; the IOs are literally people from all over the world. It is important to know that some 33% to as much as 50% of all border violators enter our country via the International airports. Such intentional and fraudulent “overstays” as they are well-known, arrive with no intention of leaving. Obviously, they have been winning.

Second

As previously mentioned, in 2018 the federal government estimated there were some ten (10) million IOs in our country. I believe that is a wild guess on their part!

Given that ten (10) million estimate, then theoretically we started at zero (0) IOs after the 1986 IRAC amnesty program. And after 36 years, the IOs are now ten (10) million strong walking around our country. That averages out to “only” 277,777 IOs that enter our country every year. Or about 5,555 for each State every year! Isn't that special?

In case you are not disgusted enough yet, here comes #3...

And Third – The Bottom Line of Abuse

Again, both Republicans and Democrats are equally at fault in failing to secure our national borders. Why? Because, their primary donor base wants cheaper labor and/or more bodies legal or not to fill-up their rental units. That is far more of a pure reality than you may think, folks.

Thus, every Spring and Summer for decades, members of Congress have thrown their hands up in the air. The Party out-of-power blames the Party in-power for not doing something about it. And they both blame whomever is living in the White House. And as usual nothing gets done and the Status Quo is protected!

In one (1) of the American Citizen Statistic tables presented on the TIPA Platform website *CommonSense2nd.com*, is the US 2000 and 2020 Census Racial Groupings and 2020 Sex Tables. That 20-year Census comparison bluntly documents the results of the horrific and organized abuse of the uncontrolled US/Mexico border. That Table is presented below after some comments on those numbers.

<u>Citizen Racial Grouping</u>	<u>2000</u>	<u>2020</u>	<u>Growth</u>	<u>% Growth</u>
White	196,000,000	197,271,953	1,271,953	Less 1%

The White group, disturbingly shows very inadequate growth.

Black/African	36,000,000	43,984,096	7,984,096	22%
----------------------	------------	------------	------------------	-----

The Black group went up what could be an average amount.

Asian	10,000,000	19,366,132	9,366,132	93%
--------------	------------	------------	------------------	-----

Asians all but doubled their numbers in 20 years. The Asian community also routinely violate our borders. Of course, they typically use the International airports to enter our country with “one-way” tickets and no intention of leaving as long as they can get away with it.

Hispanic or Latino	37,000,000	60,724,312	23,724,312	64%
---------------------------	------------	------------	-------------------	-----

Then, there is the Hispanic citizens group. Over those same 20 years, their legalized American citizen count increased by 23,724,312. Or, some 1,186,215 per year. Or, a sixty-four percent (64%) increase. That my fellow Americans is what we can rightly declare as out-of-control. The US Congress does nothing stop the Illegal Occupants (IOs) invasion or to even control our southern border. Or via our International airports for that matter!

Two or More Races	0	9,190,707	9,190,707	---
--------------------------	---	-----------	-----------	-----

This Racial Grouping did not exist in the 2000 Census. It of course drew from the other counts. I am sure the Conservative and Progressive lobbyists will either enjoy picking at those numbers or they will not say a dam word. Either way, I don't and we don't care! It is time to fix it!

US Census - Population by Race Comparison 2000 vs. 2020					
Item Title	Year 2000		Year 2020	Growth	% Growth
Total US Population	285,000,000		328,239,523

The People’s Problem-Solving Proposal and Our 2022 Demand

The US Congress and the White House are hereby challenged and expected to legislate the following proposal into law, starting in 2022! The first critical action in this aggressive, problem-solution proposal is to be implemented on or before April 15, 2022.

There will be no exceptions, including any mention of the Geneva Conventions, human rights, terrible conditions in their home country of origin, fearing for their lives, fearing or experiencing assault, etc. Nothing. America and Americans has been too kind. We are tired of, if not totally disgusted with the pre-meditated and systematic abuse of our national borders... The bridge has been burned!

Yes, it has been 36 years of Border abuse and playing to our national sympathies toward the world’s underdogs. But, like they say, “Enough is enough”. Which actually means, we have really had way too much!

To be very blunt, there is **no people Crisis in Mexico, Central, and South American nations.** Nothing that justifies the “planned systematic and annual abuse” of our sovereign national borders.

Simply because, any “event” that has gone on for 36 years is not a crisis, folks. **It is an industry. And it fund\$ IO related business on both sides of the border!** It is a way-of-life and a predatory business for the people smugglers. And a real income stream for the Mexican police and Mexican military that the smugglers bribe all along the 1500-mile trail North through Mexico. Any questions?

And “within” our own borders are the businesses of processing the IOs, housing them, food, providing them legal counsel, jail space depending on the situation, and whatever else they can get – once they set foot on our soil!

They are all getting ready for the annual rush of IOs across the US/Mexican border. This year, the Spring of 2022 must be the end of it!

There will be much more coming on those annual costs for public information. IO costs that will go down annually once we stop the IO flow into our nation – in 2022!! Funds to be put to better purposes for Americans. The intent over the next several years, is to reduce the taxpayer funds for any IO related costs to **ZERO!** We will functionally eliminate the domestic IO industry. That cannot happen soon enough.

o o o o

Our 2022 National Reformation Begins at the Borders

The Biden Administration with the support of the US Congress, will communicate news of this historic Suspension to a thankful American public, to all nations of this Hemisphere, and to the Mexican government, in particular. They will determine to turn-off and permanently shut-down the 35+ year flow of Illegal Occupants (IOs) that they intentionally allowed for decades. We have heard all the excuses for decades. And we do not care.

To be clear, when the Federal government for decades tells us that Mexico is our partner in the Drug War – We the People all know that is simply BS – Beyond Sense...

So once again, it is time for the People to lead, the leaders. For the bold Few among us in 2022, to act as their predecessors bravely did in 1776 – and created American Democracy.

o o o o

We the People Do Hereby Demand

Therefore, We the People do hereby Demand the following to be put in motion all but immediately:

1. ALL immigration into the US will be suspended as of April 15, 2022. The Suspension is aimed at permanently ending America's IO problem. No more IOs!
2. This immigration Suspension will also include what is generally referred to as "Chain Migration". It is a huge, backdoor into the Immigration System that will finally be plugged – permanently!
3. During the first couple years of Immigration Suspension we will rapidly implement the American National Identification Program (ANIP). America is one (1) of the few nations not to have such a critical national administrative system. It will help us to better manage population movement and to control Social Services budget\$.
4. The ANIP Badge will at least record a person's photo, figure print(s), address, and other data, as required.
5. All citizens will have a ANIP Badge. All legally registered, long-term non-citizens, foreign students, foreign workers of all types, and any other Legal Occupants (LOs) will have a ANIP Badge.
6. We will work aggressively until the existing backlog of all known IOs, is processed and all court actions are closed. Some percentage of the IOs will be allowed to stay, while the rest will be deported. And that includes men, women, and children. Those that stay will get an appropriate ANIP Badge.

There will come a time when there are no more IOs in America or dam close to it! And then, all the federal, state, and local budgets now having to deal with the IOs will be freed up for better purposes. Such as helping our own people. *Amen!*

7. We will work aggressively to identify everyone else that is not here legally. Please note that some in this group of IOs will be active criminals. They will be dealt with accordingly. The longer it takes to identify such persons, the less kind our courts will be. They could get smart and exit America immediately on their own. “They” will be processed to stay or be deported.
8. We would prefer that anyone that enters the US in 2022, is made very aware that they may not be allowed to stay. That we can be sure will be negotiated, but a hard line will be drawn! Some 36 years of IOs is way too much. Also, any babies born to women that were already pregnant when entering our country will be excluded from US Citizenship.
9. We **expect** the Biden Administration, with the support of both Parties and the US Congress, to pass the various parts of this and related legislation. ALL members of Congress will be required to cast their votes on this legislation. And the vote will be Public. Congress will also include absolute enforcement of this legislation.

o o o o

I believe that this TIPA Immigration Reform proposal realistically frames the People’s desired course of action.

There will certainly be more on this critical Immigration Reform Program. We will require that all related legislation be made public and that it will follow the **KISS Method – Keep It Simple Stupid.**

o o o o

Final Verdict – Shared Blame and Equal Failure

Please always remember that I am an Independent. My position for many years, is that both the Republican and Democrat Parties have been, are, and will absolutely continue to fail us. Immigration is only one (1) of many social and economic problems that they are useless to fix. Therefore, my fellow Americans, they obviously no longer work for the Common Good of the Masses of our Citizens – so, they need to go. **Again, that means both Parties!**

At the same time, my political observations and literally thousands of one-on-one talks with Americans of all types, tells me that over the last 17+ years the Republicans are far more of the problem in our national legislative crisis. The abuser-in-chief over all those years is Republican Senator Mitch McConnell – now the Senate Minority leader. But, the little-dictator remains a full-time legislation blocker.

Yes absolutely, the Democrats are very far from innocent here. The Democratic Party leadership too often lacks any real political backbone. Being nice in DC-politics anymore is just stupid! And, they have a sad history of blindly caving into obvious Republican games. It is truly bad theater.

It must be said, but over the last 15 years the Democrats have gone after every minority and special interest group they could find. And in some cases, the special attention was warranted. However, the Democrats are so lost in Special Interest Land *that they seem to have forgotten that White people, especially White males even exist.* The Party cannot keep doing that and survive.

In the end, both Parties have collectively forgotten how to work together to pass worthwhile legislation into law. To actually help all the regular people that foolishly keep voting them back into office.

They have forgotten that public problem-solving just happens to be their dam job! *“To solve the People’s problems that cannot or will not be solved at the State or Local levels”.*

Why is that? What is the real reason that they just can’t seem to fix anything of importance to We the humble Masses?

Simply stated, the current members, both men and women in the US House of Representatives, US Senate, and 50 State Legislatures – are collectively not working for us. They are too busy fundraising for their next election and loyally maintaining the *Status Quo*. Because they are really working for the people and industries that like things running just the way they are. *“The System”* is working for them – the Wealthy and politically connected Few. Not for the Common Good of the We the People. Such is the status quo Legislative dysfunction they do work to perpetuate and that we will begin bringing to an end – in 2022!

Therefore, the way things stand in early 2022 – any way you cut it, We the People – the Masses are not winning! And that We cannot allow to continue!

o o o o

We, the frustrated and disgusted American Public, are now ready for true legislative leadership and to have long-standing social and economic problems confronted and solve.

It is time for Our American Reformation. We have an Electoral Strategy for 2022 and beyond!

So on to the 2022 campaign trail for me and hopefully for hundreds of TIPA Platform Candidates to run and win on November 8, 2022!!!

I believe they are our victories for the taking. Let’s go get it!!!

So, call them often @ 202-224-3121!

My Sincere Patriotic Closing Message

Starting in 1776, our national ancestors had to fight a bloody revolution against their own countrymen to rid themselves of the growing oppression of King Edward II. It was the colonial American peasants, our ancestors fighting against tyranny. Their revolution yielded their (and our) national freedom, the US Constitution, and ***created Democracy in Government.***

Our revolution is waged Electorally against the oppressive legislative control of the Wealthy and Big Industry of the US Congress, and of 50 State legislatures. A classic *Haves vs. the Have-Nots* case. The same unnecessary struggle fought in every nation on Earth throughout all of history and through to this very day! Just take a moment and realize the truth of that statement.

Our Second American Revolution of today, will preserve our nation, uphold the sacred US Constitution, and serve to ***create Democracy in Economics.*** That is our historic challenge to answer. We will be victorious for our families and those that follow us.

I call this, ***Our American Reformation.*** We are the American People and We will not be dictated to or defeated! God bless America...

I pray God's blessing on you, those that you love and otherwise care about, and the 328+ millions of our fellow American citizens, that you and I will never ever meet.

When the time comes my fellow American, know who to vote for, and then go VOTE!!!

I thank you for your time, take care,

A. J. Wildman
