

TIPA Proposed

US Constitutional Amendment 2022 Abortion Choice and Right-to-Life Reconciliation

This proposed Constitutional Amendment will clarify an individual woman’s Civil Rights with regard to the termination or not of a given pregnancy.

First Trimester of Pregnancy – Months one (1) thru three (3)

- The pregnancy may be terminated upon the woman’s request without interference, approval, or review by any governmental or medical entity.
- Medically safe and secure facilities will be provided for this procedure in all fifty (50) states, DC, and US possessions.

Second Trimester of Pregnancy – Months four (4) thru six (6)

- Second trimester pregnancy terminations will only be allowed under one (1) of the following condition:
- Primarily, if the life or physical health of the mother would be at risk.
- Also, if medical testing would indicate that the fetus was “sickly”. The mother would decide whether or not to terminate the pregnancy.
- No partial birth abortions.

Third Trimester of Pregnancy – Months seven (7) thru nine (9)

- The exact same policy as written for the Second Trimester.

Special Legislative attachment to this Amendment

The “morning after pill” will be made easily and inexpensively available to young women of high school age up without parental notification or involvement. Through High School health office and all pharmacies.

2022 National Debate and Final Resolution

The national discussion will start here. Today, 70% of Americans would vote for this proposal, tomorrow. It is at best, a necessary public evil. A brutal personal decision. A fully practical approach. Let’s settle this now. Then, move on to confront other problems. AJW
