Introduction

So then, so how are you holding up? That is my standard greeting.

I welcome you to Common Sense II and our American Reformation 2022.

The key word here is ***“Reformation”***. We are way beyond thinking that “Change” could fix anything anymore. Some decades ago, a major corporation had a marketing campaign and its driving message was, *“The System is the Solution”*. As a professional System Analyst and Designer, my response to that even then was, *“Then the current System must be the Problem!”* Therefore, the self-serving and perpetuating *Congressional System* that drives the US Congress must and will be smashed. Starting this very year!

I will dispense with most political background herein. You are well aware of the Broken State of Our Political Parties and the on-going, collective dysfunction of the US Congress and 50 State Legislatures. Our patience has all run-out!

With that said. I believe that I speak for us all, when I say that we are more than ready for some encouragement and Good News! Well folks, that is all I have to give you. So, please get comfortable and let’s begin sharing about our controllable future!

o o o o

Please understand that this can only be a fraction of the detail on these topics that can be found on the TIPA Platform website CommonSense2nd.com.

My intent is to give you real reasons to be encouraged about our nation’s future. And I mean starting now!

My hope is that you and yours are safely thru this disturbing pandemic experience. And that you are dealing with the harsh economic conditions we are now facing. To be clear, one (1) of my Senate campaign slogans is, ***“It is the cost-of-living, Dummy!”***

What you are being very briefly introduced to is the result of several decades of patriotic labor on my part. Sincere effort willingly given on behalf of you, your family, all of those that you love or otherwise care about, and the other 330,000,000 of our fellow American citizens that you and I shall never, ever meet!

o o o o

We Will Not be a House Divided

(Even though they very much want us to be)

We the People, Demand that the US Congress Close Our Borders – NOW!

My fellow Americans, it is now the end of April 2022. The problem-solving call-to-action message of *Common Sense II* (CSII), is intended to ignite a political Independent Third-Party Movement. A popular action that will produce real Election victories this very year, as we work our Electoral Plan.

This upstart 2022 Third-Party Movement has the time, the knowledge, the Constitutional Authority, and the patriotic Citizen motivation to win scores, if not hundreds of elected offices this coming November 8th. Yes, in the US Congress and 50 State Legislatures.

I declare that We the People, have finally had enough of the 535 blatantly dysfunctional members of the US Congress. We declare our last straw to be ***the annual uncontrolled US/Mexico border invasion***. Allowing potentially *hundreds of thousands* of **more** Immigrant Case Files (ICF) to be created and more Illegal Occupants (IOs) streaming across the “open border.”

To be blunt and in their face for a change! There is no Migrant Crisis south of the US/Mexico border. The war in Ukraine is a human crisis!

And we will no longer talk foolishly about the uncontrolled migrant flow. It is absolutely controlled by the Mexican military, police, and done with the government’s knowledge, and the Drug Cartel’s directions. And it is all allowed by the US Congress! The Plain Truth.

Why do we need to STOP the Flow? For one reason, last July LA County, California had some 60,000 homeless people. We must and will take care of our own, before all others. No apologies will be offered!

Thus, We Hereby Demand

Therefore, We the People, Demand that the Borders be closed prior to the end of May (2022!) and to remain so. Meaning no more Immigrant Case Files will be created. And IOs will be blocked from entry. It will not be easy at first, but we have a plan!

We will have troops stationed across 1962-mile US/Mexico border for at least one (1) year. And if Congress doesn’t quickly enough We will guard border until they do.

Finally, in order to ensure that this historic Immigration Reformation work long-term, We will finally implement the American National Identifier Program (ANIP).

The American Reformation 2022 is calling on our Citizens to take aggressive Electoral action.

Thus, I now welcome you to what I declare to be,

***Our Peaceful Second and Final American Revolution
and
Our Third and Final American Civil War***

o o o o

We the People Demand a Viable Solution on Immigration

We Americans are an overly patient people. However, we certainly do have an issue that grinds most Americans every time it is mentioned or jammed in our faces. That very solvable problem is the constant, uncontrolled migrant invasion of our nation. We the People, are rightfully disgusted with the US Congress for not protecting our borders. Both Parties have, are, and will continue to ignore this problem. No guts!

The domestic *propaganda* they feed us all the time is that We the People support immigration. However, the domestic *reality* is that **We only support legal, quota-driven immigration**. Got it!

I do offer that my professional career was 35-years in the Information Technology (IT) Industry. For several years in the 1990's, I worked as consultant to the US Immigration and Naturalization Service (INS). Myself and another guy wrote an upgrade to the IT system used to perform passenger check-in at airports and land border crossings. I inform you of that, so you know I have first-hand experience working with INS staff at HQ in Washington, DC and along the US/Mexico and Canadian borders, as well.

So, we ask, why does this invasion go on unchecked by the Congress. For the answer, let's quickly go back 36 years.

In 1986, then President Ronald Reagan passed the “one-time amnesty” and citizenship legislation that would up benefiting some three (3) million mostly Hispanics but also people from all over the world. Of course, it was only supposed to be about 1.5 million! Reagan also said at that signing, “Now we will get tough on employers so they quit hiring illegals.” We knew then, as we know now, that was a big joke on us.

o o o o

Again folks, *please* understand that both Republicans and Democrats are equally at fault in failing to secure our national borders.

Why? Because, their large donors want a steady flow of cheap labor and/or more bodies legal or not to fill-up their rental units. So, do not allow the Republicans to claim any high-ground on immigration policy. Both Parties own the problem and ignore it.

Now for the Truly Ugly Real Numbers – Brace Yourself

First, the Federal government openly acknowledges that there are an estimated ten (10) million unknown IOs walking free within our borders. Evenly spread over those 36 years, it averages 277,777 IOs per year!! The same population as Plano, Texas; and Newark, NJ!!

Second, according to the group called, TRAC, the US Immigration Court has a current backlog of 1,755,934 cases. Of course, none of which are the IOs! Texas alone has 281,957 cases. And their Congressional delegation won't touch the problem.

A final perspective, is detailed in the year 2000 and year 2020 US Census events. It documents our nation's Citizen population racial growth.

<u>Citizen Racial Grouping</u>	<u>2000</u>	<u>2020</u>	<u>Growth</u>	<u>% Growth</u>
White	196,000,000	197,271,953	1,271,953	Less 1%
Black/African	36,000,000	43,984,096	7,984,096	22%
Asian	10,000,000	19,366,132	9,366,132	93%
Hispanic or Latino	37,000,000	60,724,312	23,724,312	64%

- The White population went up less 1.5 million in 20 years. That is disturbing and will be discussed another time.
- The Hispanic citizen count increased an average of **1.2 million per year!**
- In the year 2000, the Hispanic citizen population was already 1,000,000 more than the Black. By 2020 that number grew 17,000,000. That my fellow Americans is what we can rightly declare as out-of-control border abuse.

In 36 years, neither Party in the US Congress or the White House administrations has done anything to STOP the “regular” migrant invasion, as these numbers clearly indicate. Also, the rarely mentioned dual invasion in the form of traveler Overstays – via our international airports!

o o o o

Here now is the People's Solution and desired course of action.

The People’s Simple Solution

“We, the Fully Aggravated American Public Demands that All non-Annual Quota Immigration is to be Suspended Immediately and Permanently”.

Therefore, by the Power granted to us by the US Constitution – We the People, are granting the US Congress and the White House Administration, our collective permission to implement the TIPA Immigration Reformation Proposal overviewed below.

We the People believe in the KISS method of problem-solving. Which means, **“Keep It Simple Stupid”**.

Therefore, stated so that even the thick-headed members of Congress might understand it, “Just close the damn Borders!”

It is that simple, folks. That is all we need to do. And do it NOW!!

1. Under this historic legislation, the Biden Administration and the US Congress will announce the total Suspension of Immigration to a stunned and thankful American public.
2. Our Border Patrol agents could implement that Cut-off procedure in a day. **Just no more cases will be created.** In all those 36-years the US Congress could not figure that out. Thus, we will lead them to it!
3. All they need to do at the Borders is take-in NO NEW IMMIGRANTS and create NO NEW CASE FILES. No one comes in, period!
4. Should anyone step foot on our land, they will not be processed in any way other than being immediately hustled to the nearest Port-of-Entry and released to the Mexican police or military. The very people that allowed and profited from them traveling some 1,500 miles north to America.
5. The Suspension will be immediately known to all nations of the World and to the Mexican government, in particular. Then Mexican President Andres Obrador must declare the permanent shut-down the northern flow of migrants that Mexico has allowed for decades, for profit. Mexico also dumps more of its own population into America each year.
6. So-called **Chain Migration** will be ended. **That back door will be closed.**
7. For IO women and those with actual Case Files that somehow give birth on our soil, especially in less than nine (9) months – we will no longer grant citizenship. **That back door will also be closed.**
8. **Title-42** – No Longer an Issue – After closing the US/Mexico border in May, we can forget about that legislation lapsing or not. Because no one will be coming in. Finally!
9. Bluntly, when the Federal government for decades tells us that Mexico is our partner in fighting both the migrant movements to the North and against Drug Trafficking – We the People all know that is simply purely **BS – Beyond Sense...**

I expect there will be a rather loud public debate over this Suspension.

Our ridiculous excuse for an “Immigration System” is not anything of the sort. It is now only meant to allow thousands of regular and IO migrants to have “easy” access into our nation every day...

Military Support Required – The Only Way to Stop It

We will use our military across the entire 1,962 miles of the US/Mexico border for at least one (1) year. However, We may need to start with our own 2022 Minuteman and Minute-women from across the nation to stand Guard until the Congress wakes up and our troops are deployed to defend the Homeland!

Now of that is a joke, folks. It is hard policy, but the ONLY WAY to stop the unwanted migrant flow, but will also hammer the Hard Drug flow across borders substantially.

So, then I guess the nice people in Mexico can stop sending us Heroin, Fentanyl, and other killing agents. Fentanyl is a synthetic drug that is 80 times more potent than Morphine. It is responsible for 80% of overdoses in Maryland. Points made.

Troops are Required at the US/Mexico Border

Now we are down to real business! Acting to Halt the constant invasion.

Speaking of Revolutionary. It is us Declaring to the World that our borders are Closed to all non-Quota entry. The Canadian and Mexican borders, and all international airports! “No More New Immigrant Case Files” will be created. Airport Overstays *that account for half of the IOs* – will be found and deported possibly along with whomever they are living with.

As an immediate benefit, the currently forming Mexican caravans will be halted once the World knows we closed the border. From then on, it will be *by-invitation-only* immigration through our Embassies in each country. That is control!

In hard reality, to make this Suspension actually work, we will be required to place American troops along the entire US/Mexico for at least one (1) year, but could be longer. We have our military people sitting in-country that could easily be reassigned under State Governor control along the border. We also have 56,000 troops in Japan and 35,000 in Germany. No problem having the troops to do it. We could be talking some 25 to 40,000 troops in rotation. We got that!

And it is sad to need to say this, but we do not want any of the poor Ukrainian refugees to come here until Congress closes the borders. In my personal opinion, in this case Europe needs to take care of their own. It is reality check time, everybody.

Our American immigrant nation – is full-up and closed.

The **“No Rooms Available”** sign is posted!

American National Identifier Program (ANIP) Implementation

The Critical Centerpiece of Our Solution

To be crystal clear, everyone! If we do not properly and promptly implement the ANIP along with closing the borders and tightening all future immigration – we might as well not bother at all.

The critical data component of TIPA’s true Immigration Reformation proposal is the immediate implementation of the ANIP. Almost every other nation in the world uses that data to manage their citizens and other Legal Occupants (LOs). Our Social Security Number and/or State Driver’s License are grossly inadequate.

The ridiculous fact is that we do not have a National Id. The unique Citizen Id is critical mass in a viable population management system. Thus, our nation functions like a warehouse with over 330,000,000 parts, all without inventory control part numbers. And somebody keeps backing up to our warehouse and just dumps thousands more un-numbered parts in the door. To date, another 10,000,000 “or so” Illegal Occupants (IOs) that are floating all around in our warehouse. No way to manage our population...

o o o o

I Call-Out American Patriots to Help Guard the US/Mexico Border

If the regular Ukrainian citizens can pull together against an unwanted and totally unnecessary outside invasion, then we Americans can finally do it, too.

We the People to the Border

Preferably by mid-May, I challenge concerned Citizen groups to be coordinating their movement to the US/Mexico border. Or at least threatening to do it to force Congress to act and close the border. We could be talking a rotation of 600 to 800 “peaceful but determined” volunteers per State. We will simply embarrass the Congress and White House into finally doing the right thing. Let’s do it!

We must do this ourselves folks for two (2) big reasons.

First, we will support Border Patrol. I do believe they will welcome the help in stopping the year’s Southern border invasion.

The People will do this while the Congress is running around hiding from the overt Hispanic lobbyists and the covert Drug lord lobbyists for blocking the flow of people and drugs into America. The Truth will set us free!!

Second, because otherwise the Congress will take months or forever to get it done. We Citizens will establish and maintain total Border coverage until our own military arrives!!

It will be the true second coming of the American Revolution’s *Minutemen!* With probably some *Minutewomen, too!!*

In Closing

In Part 2, we will review the TIPA Electoral Strategy for 2022, 2024, and beyond. Review our national Independent Third-Party Movement and how the creation of self-organizing TIPA Local Chapters coast-to-coast will select their TIPA Independent candidates.

I am with you my fellow Americans to both encourage and confirm to you that there is a way that We can electorally begin to reverse the downward spiral and dysfunction of the US Congress. I will be here working for and with you through this most noble of human struggles. Preserving American Democracy.

o o o o

Therefore, *We the People*, now need to be about our nation’s business...

So, I pray that God will continue to bless the United States of America.

Thank you and take care my fellow American,

A J Wildman

Introduction

My dear fellow American Citizen. Welcome to Part 2 of Common Sense II.

I am Andrew J. Wildman. I have been known as “A J” for many years.

Again, I welcome you to Common Sense II and our American Reformation 2022.

The word is ***“Reformation”***. We are way beyond thinking that “Change” could fix anything. Some years ago, a major corporation had a marketing campaign and its driving message was, *“The System is the Solution”*. As a professional System Analyst and Designer, my response to that even then was, *“Then the current System must be the Problem!”* Thus, the self-serving and perpetuating *Congressional System* that drives the US Congress must and will be smashed.

We are all well aware of the Broken State of Our Political Parties and the on-going, collective dysfunction of the US Congress and 50 State Legislatures. Our patience has all run-out!

In the early 1990’s a famous Presidential campaign slogan was, ***“It’s the Economy, stupid”***.

In my 2022 Independent campaign for Maryland US Senator, one of the slogans is, ***“It is the Cost-of-Living, dummy”***. And we need to fix it, NOW!!!

Therefore, there is a lot to be done so, *We the People*, now need to be about our nation’s business...

o o o o

I believe that I speak for us all, when I say that we are more than ready for some Good News! Well folks, that is all I have to offer you. So, please get comfortable and let’s take a look at some of our controllable future!

Please remember this is a fraction of detail on these topics presented on the TIPA Platform website CommonSense2nd.com.

My pure intent is to give you real reasons to be encouraged about our nation’s future. And I mean starting now!

“Finally Voting Out the Failed 2-Parties and First Comments on Race”

Why the Dysfunctional US Congress Must be Replaced?

The State of our political Union is broken. Why, simply because both failing Parties are simply not working for the Common Good of some 90+% of our 330,000,000 American Citizens.

This is my terse, but fair description of the publicly dysfunctional Republican and Democratic Parties and the US Congress that they are dishonoring...

About the Republicans

The Republican Party does not even make an attempt anymore at presenting a public-serving Platform. As I have written many times, they blatantly serve and only care about their Wealthy donors and some 8 to 10 Big Industries. Further, Republicans in the US Senate do everything they can do to block needed economic, social, and environmental programs.

They even fought National Infrastructure legislation for over five (5) years. But of course, in 2017 they joyfully gave their wealthy donors and Big Industry a massive and unnecessary 1.5+ trillion-dollar tax break.

I declare that in the last six (6) years, the Republican Party has lost what was left of its political soul and any sense of responsibility for the Common Good of our citizens. Further, they are actively leaning toward dictatorship and so are deliberately walking away from Democracy, and their sworn Oath of Office! They do not even try to hide these facts. The Republican Party leadership could frankly care less about the People or American Democracy.

About the Democrats

Yes, and on the other hand – there are the Democrats.

The Democrat’s Party, has always presented itself as the Party that cares more about the average American, and so they are. They functionally do care about people and have been responsible for the passing of any significant social, economic, and environmental programs over the years.

However, in the last dozen or so years and the last six (6) in particular, Democrats have gone completely overboard catering to any and every special interest/minority group they can find. **Yes, I said that because it is true!** Certainly, some of that attention and legislation was warranted. But, the hard-left Progressive (Liberal) wing of their Party has become too radical and is destroying the Party’s image with the Masses.

And very bluntly put – their Party’s leadership appears to have simply forgotten that **White males even exist!** **And, we absolutely resent it!** **Yes, I really said that, too!**

The *Race* issue has been and is being loudly played by various groups of both good and bad intent. Do not be fooled folks. It is a tactic intended to distract, and to divide and conquer. To be very clear,

America in 2022 - is NOT - a Racist nation...

In fact, America is one (1) of the least racist nations that has ever existed. Are there racists in America, of course! That makes us just like every nation in the world – sadly it is normal, so just deal with it!

To be clear, there are Black racists, Brown racists, and Other racists in America, too, but nobody ever seems to want to talk about those racists do they?

To be even clearer – **the vast majority of Americans are not racist. And we resent that label, too!**

Further, as some critics of the “evil” White Americans somehow choose to forget, is that we “white people” elected the first African-American President some 14 years ago and then re-elected him four (4) years later. The winning majority of the votes in both Elections, were deliberately cast by White Americans. The Plain Truth!

Of course, there is a loud “minority” of Americans, not only Whites, that are racists and many of them will always be. Again, the Plain Truth! We just need to deal with them and put them in their place.

Remember, folks! United We Stand!!

An Unforgiveable Legislative Sin

The terribly sad reality is that if US Congress had not ended required 2-year military Selective Service or the “Draft” back in 1973, there would be far less racism in our nation today and a lot less of other problems, as well. Think about that for a moment. It ended probably pushed by Defense contractors, so they could start renting us soldiers at a large hourly rate! And so, they did...

Thus, for many good reasons we must soon restart the Draft and this time for both men and women!

I believe that is enough on our publicly broken US Congress for now. Of course, the same dysfunction exists in too many of the 50 State Legislatures.

“We Americans Will Not Be a House Divided”

(Even though they very much want us to be!!)

o o o o

Our Winning Electoral Strategy for 2022, 2024, and Beyond

I refer to this process as “Replacing The 535+”

The US Congress has become collectively dysfunctional and disinterested regarding the Common Good of our citizens. We will begin a deliberate, orchestrated, and orderly replacement of those problem perpetrators with TIPA Independent candidates on 11-8-22!

The publicly declared goal of the TIPA Third-Party Movement, is the multi-year replacement of members of the US House (435) and Senate (100), as well as those in 50 State Legislatures, hence “**The 535+**”.

I will now highlight the Electoral Strategy we will follow in order to first succeed in the 2022 Congressional Election. It will set the political stage for even greater success for TIPA Independent candidates in the 2024 Presidential and Congressional elections. Again, see the website for far greater detail on everything.

These *CS2News Podcast* and *CS2News YouTube channel* postings of *Common Sense II*, will hopefully spark the public’s involvement in this politically popular Independent Movement. Encouraging politically Independent Citizens all over the nation to self-organize and build the TIPA Local Chapters and promote their TIPA Platform supporting candidates.

- To be very clear, in May and June and well into the summer months, there will still be hundreds of seats in the US House and Senate, and 50 State legislatures to be contested this November. In most States, Write-In candidates can still register up until just weeks before the November election! Of course, our candidates will File much earlier.

In fact, I will be running as either a Petition or Write-In type candidate myself. Not to be concerned if that initially sounds like an odd approach to you. It is a fully practical approach that they cannot block.

- Importantly, our potential TIPA Platform Candidates (TPC) will have a written and comprehensive Independent Platform of 40+ proposals that is acceptable to 65% or more of the Public. The 2-Parties cannot begin to touch that. Starting with TIPA Immigration Reform!
- We are starting a politically “Independent” Third-Party Movement. It just so happens that the political pollsters document that 40% of Voters have been leaning politically Independent for many years. Thus, Independents could now support a viable Independent Party and promote a practical, problem-solving Platform! What a concept!
- As the good news travels about the TIPA Platform and the real opportunity to remove useless politicians at all levels of government, I believe that folks across the country will respond. They will be supportive of my request and challenge to self-organize a TIPA Local Chapter (TLC) in their own area. *Coordinated entirely via social networking, word-of-mouth, texting, etc.*

- Our Party’s legislative goal is to join the nation and neighbors together around the Independent Problem-solving TIPA Platform. It is not perfect, but 65% approval is a good start!! It will start us working our solvable problems. The Platform is the centerpiece of this Independent Third-Party Movement.
- The TIPA Platform must be the real tie that binds our campaign message, our Candidates, the Public, and the Voters together. If someone has a big problem with a key part of the Platform – then they will either accept it or find another Party. Our Platform saves people, improves lives, answers countless millions of prayers, and saves and/or better utilizes the Taxpayers money. What’s not to like there?
- Some critics will cry that I am hard on Republicans. Yes, I am. And after the last six (6), if not the last 20 years, they damn good and well deserve it. Both Parties deserve it!
- Remember, I am running an initially underdog campaign for US Senator for Maryland against an established Democrat incumbent. But, starting with the Immigration Reformation proposal I believe I have good chance of winning in November.
- While our primary focus in 2022, is on:
 - US Senator (34)
 - US House of Representative (435)
 - State Senator
 - State Representatives (this chamber in many state governments is called by different Titles, e.g., House of Delegates in Maryland)
 - And don’t forget folks, there are many other potential offices in all 50 States to pursue in 2022, such as:
 - State Governor
 - Secretary of State
 - Many others
- Chapters will seek to run their TPC Independents this November. They will help File the Candidate, help with fundraising, collect Petition signatures if required, set-up public events, and get out the vote. Note: do not start raising funds for a candidate until they are properly registered with the State.
- You could imagine that as our Independent Movement grows, it will draw tremendous and **FREE** Press coverage! We will be the hottest thing in politics in the 2022 Election. That will in turn promote our candidates to the Voters, help raise campaign funds, and generate real Public debate on solving problems. Excellent!
- In 2022, as they self-organize the Local Chapters will be become informed on their State’s “Elections Game” and be well-prepared in 2024. We will continue lining up potential candidates for 2024 – in 2022 and 2023.
- The TIPA Party will not work to be formally established in the 50 States and DC, until 2023. It would unnecessarily complicate our 2022 Electoral activities. We will address those important activities in 2023.

Our 2022 Incumbent Office Targets

Again, both Parties are up for grabs this election year. The various Incumbent offices we seek to run against and win are:

- Any Democrat or Republican that decides not to run for Re-election to their current seat in 2022. We should have a real opportunity with the frustrated Democratic voters and Republicans, as well.
- As of April 6st, Ballotpedia documented the following:
 - Some 54 members of Congress (of 535) were not running for their seats.
 - Of those, six (6) are US Senate members and 48 of them are US House members.
 - In the Senate, five (5) are Republicans and one (1) is a Democrat.
 - In the House, ten (10) are Republicans and some 22 are Democrats. This is good!
- There are twenty (20) Republican incumbent US Senators running for re-election. Every one (1) of those seats is priceless to this Independent Movement. It will also help to destroy the little dictator Senator Mitch McConnell’s legislative blockade.
- Also, consider that some Democrats and Republicans could switch to the TIPA Party, after they win re-election. It could happen.
- Last, but not least, let’s not forget the extreme “crazies” both on the Republicans and Democrats sides. Moderates work to solve real problems. The crazies only seek distract, complain, and delay or kill progress. Please let’s run against as many of them we can in 2022!
- Five (5) Republicans and one (1) Democrat are retiring this year. Go get those seats!

So, there it is! A true challenge for our new and self-organizing TIPA Local Chapters, but they can do it. There is and will be more about the Election process on the TIPA Platform website.

My hope is that if you were not that familiar with how the Electoral System works, that it makes a bit more sense now. And, that you can begin to see how we could really capture many Congressional and State level offices this November.

What is in it For You and Yours?

The political reality that kills most Independent candidates or an upstart new Party hopeful, is that they are too often only one (1) or (2) issues of interest to the Voters.

As for myself and all of our future TIPA Platform Candidates in 2022, we again will offer the frustrated Public and Voters a comprehensive base of 40+ problem-solving proposals with that 65% or better approval rating – with the general public!

This the literal rebirth of Moderate problem-solving politics in the US Congress and 50 State legislatures, if we do this right. And we will!

o o o o

Here are a few of the issues our candidates will confront with the TIPA Platform:

1. Closing and actually securing our Borders.
2. Food – Deliberately Reforming the Food Industry into a National Food Utility System. Still run by industry not government. Public Energy Utilities costs are mostly controlled at the State level or no one could afford to turn on their lights or heat. We will protect farmers and grocery stores, but all of the old markups will be reduced if not eliminated. The ATM known as the Commodities Market will be brought under practical control and permanently so.
3. We will implement the Obvious Guilt, 90-Day Death Penalty Law for Pre-meditated murder, predatory rape, and as people told me to include pedophiles for starters. This has over at least 80% approval with all types of people.
4. Housing – meaning every Citizen will have a fixed address. Is that too much for our citizens to expect? And I do not mean for free. We will implement national Rent Control and enforce it.

Just imagine how better any nation would feel if their people knew that they did not need to worry about Food and Housing. We could that and set the model for the World.

5. US Re-Employment System – This is one (1) of my favorite proposals. It will fix many problems for many individuals and families. Those that can work – will work.
6. Promoting the environmental action, by legislating No More Passenger Flights on Wednesday worldwide. And I mean permanently. And limit the number and types of flights the other six (6) days.
7. Also, Cannabis and its cousin Hemp will become fully legalized and decriminalized in every State and DC. It will also be certified as a Small Business industry. Thus, it will

provide the State with real revenue, as opposed to paying stockholders and executive compensation. Basically, the Colorado model.

And there are many more on the TIPA Platform. Check it out CommonSense2nd.com.

Calling on the Generations to Preserve Our Future

I am a proud and patriotic American citizen, born in Washington, DC of all places!

I am also a proud Baby-Boomer. My generation was born from 1946 to 1963. The oldest among us will be 75 years old in 2022.

I am calling on all the Boomers across the nation to step up and help build your TIPA Local Chapter. Get on Facebook and go crazy! Get your family's generations together and please forget about Republicans and Democrats for a while. Just get familiar with the TIPA problem-solving Platform. I can easily see three (3) generations or more (ages 18 and up) coming together and promoting the Platform and your TIPA Platform Candidate (TPC).

You get the idea. One (1) serious note about your candidate selection process. PLEASE NO LAWYERS. Totally serious on that matter. More on that another time. It is most logical.

U.S. Year 2020 Census by TIPA Generation Groupings				
Gen Group Number	Year Count	Birth Year Range	Age Range in 2019	Generation Group Population

1	18+	1927 & before	92 to 100+	1,704,243
		Total Population		328,239,523

In Closing

This concludes Common Sense II – calling for our American Reformation 2022.

I am here my fellow Americans to both encourage and inform you We can finally begin to correct and replace the dysfunctional US Congress and 50 State legislatures, as well.

I will be here front and center, working for and with you through this most noble of struggles – Preserving American Democracy!

The pendulum of American Democracy has been pushed too far toward the Dark Side. We will now take charge and bring things back into the Light of Plain Truth and to serve the Common Good of our Citizens.

So, I pray that God will continue to bless the United States of America.

Thank you and take care my fellow American,

A J Wildman

APPENDIX – A

In one (1) of the American Citizen Statistic tables presented on the TIPA Platform website *CommonSense2nd.com*, is the US 2000 and 2020 Census Racial Groupings and 2020 Sex Tables. That 20-year Census comparison bluntly documents the horrific and organized abuse of the uncontrolled US/Mexico border.

US Census - Population by Race Comparison 2000 vs. 2020					
Item Title	Year 2000	Year 2020		Growth	% Growth

	285,000,000		328,239,523		
<u>The World's Population</u>					
<u>Year</u>	<u>Total</u>	<u>Growth</u>			
1990	5,278,639,789	15.2			
2000	6,082,966,429	12.6			
2010	6,956,823,603	10.7			
2020	7,794,798,739	8.7			

We, the frustrated and disgusted American Public, are now ready for true legislative leadership and to have our long-standing social and economic problems confronted and solved.

It is time for Our American Reformation. We have an Electoral Strategy for 2022 and beyond!

So on to the 2022 campaign trail for me and hopefully for hundreds of TIPA Platform Candidates to run and win on November 8, 2022!! Winning seats in the US Congress and 50 State legislatures.

I believe those victories could be ours for the taking. Let's go get them!!
